PART I.

Orders and Notifications by the Governor of Bengal, the Government of Bengal, the High Court, Government Treasury, etc.

ORDERS BY HIS EXCELLENCY THE GOVERNOR OF BENGAL.

No. 7924A.—The 28th June 1924.—Whereas the Commissioners appointed under rule 36 (2) (*a*) of the Bengal Electoral Rules to enquire into the petition presented by Babu Shyam Chand Basak against the election of Rai Pyari Lal Das Bahadur to the Bengal Legislative Council by the Dacca City (non-Muhammadan) constituency have after due enquiry reported to the Governor that the returned candidate Rai Pyari Lal Das Bahadur was duly elected and have recommended that the petition presented by Babu Shyam Chand Basak be dismissed.

Report.

The petitioner and the 3 respondents were the four candidates for a seat in the Bengal Legislative Council, to represent the Non-Muhammadan Constituency of the City of Dacca at the last General Election held in November 1923. The result of the election was that the respondent No. 1, Rai Bahadur Pyari Lal Das, M.B.E., was returned as the successful candidate. The petitioner and the other two respondents stood respectively 2nd, 3rd, and 4th in respect of the votes secured by them. The majority obtained by respondent No. 1 over the petitioner, according to the Election Petition, consisted of 29 votes. The petitioner, by his present Election Petition seeks to have the Election of the respondent No. 1 set aside, and, further, to have it declared that he (the petitioner) had been duly elected. The petitioner further prays that if the irregularities alleged by him be found to have vitiated the entire Election, the whole of the Election might be set aside. In support of the Election Petition, the petitioner alleged certain corrupt practices and non-compliance with certain Regulations in the Bengal Electoral Regulations.

2. The respondent No. 1 traversed the petitioner's allegations both with respect to corrupt practices and non-compliance with certain regulations. The other 2 respondents had also filed written statements, but they did not subsequently take any part in the actual enquiry. It may, however, be noted that the respondent No. 2, Dhirendra Chandra Ray, substantially supported the petitioner's allegations in the latter's Election petition.

3. Before proceeding further, we may mention certain matters, in respect of which we had either reserved our opinion, or which had transpired during the enquiry.

4. On the 11th of April last, when we sat for the first time to settle the points for determination, the petitioner had presented a petition, alleging three more instances of corrupt practice on behalf of the respondent No. 1. We, however declined to entertain that petition as, having regard to the period of limitation prescribed under Rule 32 (*1*) (*a*) of the Bengal Electoral Rules, the above petition was time-barred.

5. Another matter relates to the prayer made by respondent No. 2 in his written statement, claiming the seat for himself, in case, both the respondent No. 1 and the petitioner were declared unsuccessful. We declined to entertain this prayer, having regard to the proviso to Rule 42 (*1*) of the Bengal Electoral Rules, which had not been complied with.

6. There were also certain recriminating allegations in paragraph 17 and part of paragraph 18 of the written statement of respondent No. 2, which we declined to consider, as the proviso to Rule 42 (*1*) had not been complied with.

7. On the 19th of May last (the date on which we commenced the actual enquiry, *i.e.*, the recording of evidence) the respondent No. 1, by a petition, prayed for the alteration of point No. 9 for determination. The main ground for the petition was that, as the official marks on the ballot papers were to be kept secret under the Bengal Electoral Regulations, those papers could not be inspected by the petitioner and that, therefore, the petitioner's allegation with regard to the absence of official mark on the back of some of the ballot papers could not be enquired into. In our opinion, there was no substance in this petition since Regulation XXIX (*2*) enjoining secrecy of the official marks, obviously was applicable only when there was no enquiry on an Election Petition. When, however, such an enquiry was ordered on an Election Petition, in which the very question of non-observance of the secrecy referred to above was raised, the official marks could not be kept secret during that enquiry.

8. We may also mention that in the course of our enquiry we inspected the Wari Girls' School (one of the polling stations) and one Iswar Thakur's house, on the 5th of June last, in presence of the petitioner's learned Counsel and Pleaders for respondent No. 1. We shall have occasion to refer to these places in this report, and we inspected them, so as to give us a better idea of the localities.

9. It is, further, necessary to note here that our estimate as to the credibility of many of the important witnesses has been affected appreciably by the admitted fact that the respondent No. 1 and his alleged agent, Nabendra Nath Bysak, have been on bad terms with respondent No 2, Dhirendra Chandra Ray, in connection with public matters. For instance, it is in the evidence of petitioner's witness No. 16 Taposh Babu, a pleader, that at the Municipal Election before last, in the contest for the Chairmanship between the late Nawab Yusuf and respondent No. 1, who had eventually succeeded, respondent No. 2 sympathised with the Nawab. The same witness has also stated that at the Council Election held in 1920, respondents 1 and 2 were both candidates, but the respondent No. 1 was elected, respondent No. 2 having withdrawn. It further appears from the evidence of petitioner's witness No. 25 that at the last Municipal Election, in the contest for the Chairmanship between Mr. Nazimuddin and respondent No 2, in which the former succeeded, respondent No. 1 and Nabendra Nath Bysak had supported Mr Nazimuddin. It is also in evidence that there had been several Municipal Election suits between the petitioner and Nabendra. It is further in the evidence of respondent No. 1 that there were two parties in the Dacca Municipality, one of which is headed by the respondent No. 1, and the other by the respondent No. 2.

As to the feeling between Nabendra and respondent No. 2, it has been particularly bitter since last August. Both of them were Municipal Commissioners at the time. It appears that in August last, in consequence of a letter received from the District Magistrate, a resolution was moved by respondent No. 2 at a meeting of the Municipal Commissioners for the removal of Nabendra and two other Commissioners from the Municipal Board. Respondent No 1 apparently did not assent to the resolution, but moved an amendment, and further interviewed the Divisional Commissioner, to bring about an amicable settlement, and, at the instance of Nabendra, respondent No. 1 also interviewed Sir Surendra Nath Banerjee, the then Minister in charge. Eventually, the above resolution resulted in the removal under the orders of the Government, of Nabendra and the other two Commissioners from the Municipal Board. Nabendra had since then instituted a suit against the above order of removal.

We have thus been influenced in estimating the credibility or otherwise of many of the important witnesses, who are in some way or other closely connected with respondent No. 2, as it was perfectly clear to our minds, from the written statement of respondent No. 2 that he was substantially supporting the petitioner's case, although, as already noted, respondent No. 2 did not take any ostensible part in the actual trial itself. Respondent No. 2, as the evidence shows, is a very influential person. It is in evidence, that he is the only son of Babu Ananda Chandra Ray (once a leading Pleader of Dacca), who has been described as being very rich and holding an unique position in Eastern Bengal. We are, therefore, perfectly satisfied, having regard to surrounding circumstances, that the position and influence of respondent No 2, and possibly his wealth too, had been placed at the petitioner's disposal, in order to help him in prosecuting his Election Petition, and that this was done in consequence of the bad feelings, to which we have referred.

10. With these preliminary observations, we now proceed to deal with the allegations made in the Election Petition. These allegations will appear sufficiently from the first nine points which were settled by us on the 17th April last for determination during the enquiry. They are as noted below :—

"(1) Was Babu Nabendra Nath Bysak, an agent for respondent No. 1 ?

(2) Did Babu Nabendra Nath Bysak, on the 19th of November 1923, deposit a sum of Rs. 1,200 or thereabout, with one Sitanath Karmakar of Joginagar, Ward No. 3, for the purpose of securing votes for the respondent No. 1 or for inducing the voters to refrain from voting for other candidates ? Was a sum of Rs. 200 or thereabout out of that said sum set apart for paying poor voters of the above ward, and was the balance of Rs. 1,000, or thereabout, paid to meet the cost of supplying electric lights for the Thateri Bazar Road in the above ward ?

(3) Was a sum of Rs. 300, or thereabout, paid at Goailara Lane by the said Babu Nabendra Nath Bysak on the 21st of November 1923, on behalf of respondent No. 1 to one Akoo Chandra Bysak (voter No. 808 of the published list) of holding No. 2 of Goailara Lane of Ward No. 3 ? Was this payment made to secure votes of the voters of that ward, as well as of others of the locality, and was the above sum paid for repairs of the Thakurbari of the idol "Radharaman Jee" of the voters of holding No. 2 at Goailara Lane, Ward No. 3, and has the above sum been actually spent in repairing that Thakurbari ?

(4) Was a sum of Rs. 100, or thereabout, paid on the 21st of November 1923, by Babus Gour Chandra Das, Radha Raman Das, Gokul Chandra Das of Enayetganj, Ward No. 7 in the house of Thakurdas Rishi of Chowdhury Bazar, Ward No. 7 to Mohini Rishi, Thakurdas Rishi, Jarasindhu Rishi and Purna Rishi of Chowdhuri Bazar of the said ward ? Was the payment made to secure the votes of these Rishis for respondent No. 1 ?

(5) Did Babu Nabendra Nath Bysak, as agent for respondent No. 1, on the 19th of November 1923, take a vow in the Thakurbari of Sita Nath Karmakar of Joginagar in Ward No. 3 to make a further payment of Rs. 800, or thereabout, to meet the cost of supplying electric light and extending connection to the Thakurbaris, in addition to the sum of Rs. 1,200, or thereabout, mentioned in point No. 2? Was this promise of a further payment of Rs. 800, or thereabout, made in order to induce the voters of that locality to vote for respondent No. 1 and not to vote for any other candidate?

(6) Did Amrita Pal of Puran Moghultuly on the 22nd of November 1923 tell Prabhat Chandra Sen, Kaviraj of that quarter, that respondent No. 1 had promised to reclaim an old tank, described and bounded, as mentioned in the petitioner's petition of to-day's date, if the people of that quarter would give votes for respondent No. 1? Did respondent No. 1 wait in his *gari* whilst Amrita Pal went and spoke to Pabhat Chandra Sen as above?

(7) Did some one personate one Haran Chandra Chatterjee, voter No. 649 of the published list, and did that person vote as a registered voter of Sashi Mohan Basak's Lane in Ward No 3? Is it a fact that Haran Chandra Chatterjee had not been heard of for many years, and that he was not at Dacca on the date of voting?

(8) Was an attempt made on behalf of the respondent No. 1 to have one Kanchan Muchi of Ward No. 5 who had been long dead, personated by some persons in order to have Kanchan Muchi's vote recorded for respondent No. 1?

(9) Has the Election of the respondent No. 1 been vitiated, or the result of the election materially affected by any of the irregularities, omissions, defects, or non-compliance with the Electoral Rules and Regulations referred to, or alleged in paragraph 6 (*a*)—(*e*) of the petitioner's Election Petition?"

It was conceded by the learned Counsel for the petitioner that there was no evidence with respect to points 5, 6 and 8, and we must hold, therefore, that the accusations, as appearing under these points, have not been proved.

12. With regard to point No. 1, as to whether Babu Nabendra Nath Bysak was an agent for respondent No. 1, in view of our finding on point No. 5, and further of the conclusions we shall presently record with respect to points 2 and 3, it has become unnecessary to consider the point No. 1.

13. Turning next to point No. 7, it was alleged that some one personating himself as Haran Chandra Chatterjee (voter No. 649 of the Electoral Roll) had registered his vote at the polling station (Ward No. 3). It was, further, stated that Haran had not been heard of for many years, and that he was not at Dacca on the polling date. The evidence in support of these allegations is, in our opinion, exceedingly meagre and inconclusive. The witnesses examined on this point are Nos. 2, 3, 4, 5 and 11 on the petitioner's side As to No. 2, Haran's brother, he himself was not at Dacca last Kartik and Agrahayan, the Election having taken place on the 23rd November last (corresponding to the 7th Agrahayan last). The evidence of the other witnesses, at the utmost, only proves that they did not see Haran on the date of Election. This does not, however, necessarily prove that Haran was not at Dacca on that date, or that he did not himself register his vote at the polling station. It is noteworthy that the petitioner did not cite Haran, who would have been the best witness on the point, nor has any reason been assigned for the omission to have called him as a witness. We may also note that the allegation as to Haran not having been heard of for many years, cannot be true, as the evidence shows that Haran has been working as a servant at Calcutta, and that he came to Dacca, at any rate, last Magh to get married. There is also divergence in evidence as to the period for which he had been away from Dacca, which varies from 1 to 7 years.

We accordingly hold that the above allegation of personation has not been proved.

14 (*a*) The next point we propose to deal with is No. 9. It related to non-compliance with certain Rules and Regulations under the Bengal Electoral Rules and Regulations, as set forth in paragraphs 6 (*a*) to 6 (*e*) of the Election Petition. During the enquiry, however, evidence has been adduced in respect of non-compliance, detailed only in paragraphs 6 (*b*), (*c* and (*e*) of the petition.

(*b*) With regard to paragraphs 6 (*b*), it was alleged therein that on some of the ballot papers the official mark had not been put on the back, and that, therefore, Regulation XLVII (*1*) (*a*) had been infringed. We were, on the basis thereof, asked to reject such ballot papers, in respect of respondent No. 1, as had not the official mark on their back, and thus to ascertain if the respondent No. 1 could still maintain his majority of 29 votes over the petitioner. One of us was inclined to enter into the scrutiny of the ballot papers of all the candidates, and then to exclude such of them as did not bear the official mark on the back. No doubt this would have been the only course, in fairness to all the candidates, had we been satisfied that some of the ballot papers, in respect of respondent No. 1, did not bear the official mark on the back. All of us, however, eventually came to the conclusion that all the ballot papers with regard to respondent No. 1 had sufficiently recognizable official mark on the back. The official mark is the letter "B." One of the polling officers, Babu Atul Behari Dutt, who, on the special prayer made by the petitioner on the 13th instant (towards the close of the arguments of the learned Counsel for the petitioner), was examined on the 14th *idem*, has described the process by which this mark was put. From his evidence it appears that the ballot paper was put inside the press (Exhibit I) with the back of the paper turned up, and that, by the pressure on the paper made by the officer, the impression produced on the back of the paper was the

letter "B" in relief, whilst that on the front of the paper was the same letter, hollow. Now, it appears that on some of the ballot papers in question, the letter "B" in relief appears on the front, and not on the back, and it was thus contended that those papers should have been rejected by the Returning Officer, and should now be excluded by us. We are unable to concede to this contention or to grant the request made. The question to be considered—*vide* "Rogers on Election," page 148—is whether "looking at each ballot paper, there was evidence of an intention to make the official mark, and of a recognizable official mark, upon its back." Now, the ballot papers, in respect of respondent No. 1, which bear the official mark "B" in relief on the front, and not on the back, still bear, and that too, distinctly part of the same official mark "B," though hollow. It is thus clear to us that there is evidence of an intention to make the official mark, and of a recognizable official mark, upon the back of each of these papers, though through inadvertence these papers were not put in the press with their back turned up, so that, by the pressure of the press, the impression produced on them could have been the letter "B" in relief. There cannot be the slightest doubt, however, that there has been substantial compliance with the Regulation XXXII of the Bengal Electoral Regulations in respect of such of the ballot papers, the validity whereof has been questioned. The learned Counsel for the petitioner urged strenuously before us that the test to be applied, as referred to in the above passage in "Rogers on Election," was based on section 13 of the English Ballot Act, and that the Rules and Regulations under the Bengal Electoral Rules and Regulations did not contain any provision corresponding to section 13 of the English Ballot Act. We are, however, of opinion that under Rule 44 (*1*) (*c*) of the Bengal Electoral Rules, we have to consider whether the irregularity in question has materially affected the result of the Election. Bearing this in mind, therefore, as also the fact that both in England and in India it is imperative, as a general rule of law, that a ballot paper not bearing on its back the official mark, must be rejected, the test referred to in the above passage is equally applicable in considering the effect of such an irregularity during an Election in this country. Thus, for reasons already noted by us, the irregularity in question cannot possibly be said to have materially affected the result of the Election."

(*c*) With reference to the allegation in paragraph 6 (*c*) of the Election Petition, which may for the sake of brevity be described as tiffin incident, it is to the effect that on the 23rd of November last, the polling date at the Wari Girls' School (Ward No. III) the two polling officers—Munsifs Babus Jotindra Kumar Bose and Jamini Kishore Ray suspended polling business for more than 15 minutes between 2 P.M., and 3 P.M. in order to have tiffin, and that thus there had been an infringement of Regulation XXV. There is no dispute as to the Local Government having appointed 10 A.M. as the hour at which the polling was to commence, and 3 P.M., as that at which it was to cease on the above date. The case for respondent No. 1 was that there was no suspension of business before 3 P.M., and that the officers had tiffin after 3 P.M., at which hour the polling station gates were closed. The most important witnesses on the point under consideration are the 2 polling officers, one of whom, Babu Jotindra Kumar Bose, was examined by the petitioner, and the other, Babu Jamini Kishore Ray, by respondent No. 1. So far as Jotindra Babu's evidence is concerned, it does not help us much or at all, for he cannot remember when he and the other Munsif had tea—according to him, it might have been before or after 3 P.M. He has, further, stated that, as he does not remember when he had tea, he does not remember whether the enclosure (of the polling station) doors were open when he was having tea. He is, however, positive in stating that no one came to have his vote recorded during the time he took over his tea. On the other hand, Jamini Babu is absolutely certain that he had his tea after the enclosure gate had been closed at 3 P.M. There is unfortunately, however, some discrepancy in the evidence of these two officers, as to whether they had their tea in their own respective polling rooms or in Jotindra Babu's polling room. Further Jamini Babu could not remember whether there was any enclosure gate on the Northern side, the one to which he had deposed to being on the Southern side. This is no doubt due to the fact that he was in charge of the polling room on the south and had not probably noticed the other enclosure gate on the Nothern side, which would be near Jotindra Babu's room.

The other witnesses examined on this point on the petitioner's side are Nos. 9, 10, 13, 16, 17 and 19. The respondent No. 1 has also examined one Gobinda Lal Ganguli (a clerk of the District Magistrate's office), who acted at the time as a clerk of the polling officer, Jotindra Babu. None of these witnesses is really reliable. So far as the clerk Gobinda Lal is concerned, he contradicts both the polling officers on certain points. It may also be noted that he and his father live in a house rented from one Prasanna Babu, son-in-law of respondent No. 1.

With regard to the remaining witnesses on the petitioner's side we note briefly our reasons for our holding them to be unreliable. Witness No. 9, Radha Bullab Bysak, has made self-contradictory statements as to whether he went home or kept strolling along the road when, as he says, he did not find the Polling Officer on his arrival at the polling-station at 2 P.M.

Petitioner's witness No. 10, Chitya Binode Bosu, has admittedly been owing Rs. 1,500 to the Dacca Bank for over three years, and he further states that the petitioner is the Managing Director of that Bank, and that it is the duty of the Director to decide as to who should be sued for by the Bank. Further, he has mentioned the hours, by guess. Moreover, we entertain serious doubts as to whether this witness really went to the

polling station that day, for, although he has first stated that he had found the door of the main building closed, he eventually admitted that he did not notice the doors of the polling room, nor did he know which the polling room was. He has also made certain other statements towards the end of his cross-examination, which tend to show that he did not really go to the polling station on that day.

As to witness No. 12, Ram Das Bysak, he has related a story which is at variance with the petitioner's case. According to him, when he did not see the Presiding Officer after 2 P.M., he sat down inside the enclosure, and after some time when he went to have his vote recorded, he was prevented from doing so by some *Chaprasis*, with the result that he returned home at dusk.

Witness No. 13, Lalit Mohan Bysak, would state that he arrived at the polling station at 2-15 or 2-30 P.M., and finding both doors of the verandah shut, he went home and returned at about 3 or at 10 or 15 minutes before or after 3, when he found the enclosure gate closed. This witness's statements, also towards the end of his cross-examination, lead us to doubt whether the story related by him is true, for he would state that, even if he had known that the gate would be closed at 3 P.M., he would have still gone home, as his house was only 10 minutes' walk from the polling station. When questioned as to the necessity for going home, he at first stated that he went on business; next he said that he had gone home to have a drink of water; and finally he stated that he had gone home to fetch a paper, but did not remember what the paper was.

The next witness No. 16, Babu Tapesh Chandra Banerjee, Pleader, was admittedly the polling agent of respondent No. 2, and was, further, admittedly very friendly with that respondent. Apart from this, this witness could not swear whether, when Jatindra Babu had tiffin, the door of his polling room was open or closed. Now, the question as to whether the polling station enclosure gates were closed before or after the polling officers had their tea or tiffin, is of the utmost importance, for it is the case of both parties that the polling station enclosure gates were closed at 3 P.M., as prescribed by the Government. With regard to this question, then, Tapesh Babu's evidence should be considered carefully. According to him, he left Jatindra Babu's polling room for tiffin between 2 and 3 P.M., and was away for 10 or 15 minutes. He went on to state in his examination-in-chief that it was not very long after his return that the enclosure gates were closed—that by no means it was more than half an hour, and that probably it was 15 minutes after his return. In his cross-examination, however, he stated that when he returned after tiffin he had no occasion to examine whether the enclosure gates were open or closed, and that, therefore, the above statement of his on the point was based on inference. Finally, in his re-examination he added that he did not notice whether the enclosure gates were open or closed on his return after tiffin. Having regard to these varying statements, it is impossible for us to hold that the bare statement made by Tapesh Babu as to his having left the polling room between 2 and 3 P.M. for tiffin, can be safely relied upon.

With regard to witness No. 17, Babu Sarat Kumar Chakravarty, a retired Pleader of the Munsifs' Courts, Dacca, his evidence is not satisfactory either. In the first place, he would state that he was in the northern room with the Presiding Officer Babu Jamini Kishore Ray. As a matter of fact, that officer occupied the Southern room, and Jatindra Babu occupied the Northern room. Then again, he could not state how many enclosure gates there were, but he thought there was only one door on the West side of the compound. In the ordinary sense of the word "compound," therefore, the door referred to by him would be the door leading into the compound from the road, but we saw no such door at the time of our local inspection. It may also be noted that admittedly he had stated the hours referred to by him, by guess. Finally, this witness, as admitted by him, does not approve many of the political views held by respondent No. 1, or many of the latter's actions in the Council.

There remains only the witness No. 19, Jogendra Kishore Roy. For reasons which will be mentioned by us in considering point No. 2, this witness is absolutely untrustworthy and unreliable, and we cannot accept his testimoney at all.

We may further mention that the petitioner's witness No. 20, Paresh Chandra Das Gupta (Chief Agent for the National Insurance Company, for Eastern Bengal), who has deposed to his presence at the polling station in question from 11 A.M. to 5 P.M. on the polling date, was not asked a single question about the tiffin incident. In view, however, of the estimate of this witness's evidence with respect to point No. 2, we should have in all probability refused to rely on his testimony, had he deposed to the tiffin incident, in support of the petitioner's allegation. The petitioner, however, could not have anticipated that estimate, and should have questioned Paresh with regard to the tiffin incident as well.

Some stress was laid by the learned Counsel for the petitioner on the non-examination by respondent No. 1 of one Babu Upendra Gupta. We do not, however, attach any importance to this omission, as this witness had, in the first instance, been cited by the petitioner, and it was only on his non-examination by the petitioner that the respondent No. 1 cited this witness.

For the reasons set forth above, therefore, we are unable to hold that the two polling officers in question suspended polling business between 2 and 3 P.M., as alleged by the petitioner, or that they had tea or tiffin between those hours.

(*d*) With regard to the allegation in paragraph 6 (*e*) of the Election Petition, it related to the alleged infringement of Regulation XXXIII of the Bengal Electoral

Regulations, it being stated that at the polling station in Ward No. 7 the Polling Officer, in almost all the cases, had seen the marks put by the voters on the ballot papers against the names of candidates, for whom they had voted, and that consequently the secrecy of voting enjoined by the above Regulation had not been observed. Three witnesses have been examined on this point, two of them being voters and the third, Babu Gyanendra Narayan Choudhury (a pleader), being a polling agent for respondent No. 2. Gyan Babu's evidence does not show that the Polling Officer saw the marks put by the voters on the ballot papers. All that Gyan Babu has stated is that some time after the polling had begun, the Polling Officer accompanied the voters, when the latter went from the polling room to behind a black board, to put their marks on the papers. The Polling Officer may have done this to expedite matters, as he was bound to see that the official mark had been put on the ballot papers

As regards the other two witnesses—voters Nos 24 and 25 on the side of the petitioner, both of them, admittedly, canvassed for respondent No. 2 at the last Council Election. Then again, it is not clear from the evidence of either of these two witnesses whether the Polling Officer actually saw the mark which had been put by these witnesses on ballot papers against the candidates, for whom they had voted. According to witness No. 24, he inferred that the Polling Officer had been looking at the "X" mark, because that officer asked the witness to fill up the paper and put it in the ballot box, after which the witness happened to look at the Polling Officer and noticed that the latter was looking at the witness. The reason given by the witness No. 25 is equally unconvincing, it being to the effect that, when the was putting the "X" mark the Polling Officer was standing near him.

The evidence on this point is, therefore, in our opinion, meagre, unsatisfactory and inconclusive, and we accordingly hold that the allegation under consideration has not been proved.

In connection with this point we may also note that, as the Polling Officer in question was eventually called at the instance of the petitioner, and was examined, as already noted by us, on the 14th instant, the petitioner could have, with the permission of the Court, easily questioned the Polling Officer (even though he had been originally cited by respondent No. 1, though not examined) also with regard to the allegation contained in paragraph 6 (*e*) of the Election Petition, but he did not do so. It was also unfortunate that it did not strike any of us at the time to question the Polling Officer on the point

We must also note here that, although with respect to the allegation in paragraph 6 (*b*) and part of paragraph 6 (*c*) of the Election Petition, the petitioner's verification in that petition contained the declaration that these allegations were true to his knowledge, the petitioner did not examine himself. In our opinion, the petitioner should have examined himself, as various other facts might have also been elicited from him during the cross-examination.

15. We shall now deal with point No. 2 raised by the petitioner's allegation that on or about the 19th of November last Nabendra Nath Bysak had, on behalf of respondent No. 1, deposited a sum of Rs. 1,200 or thereabout with one Sita Nath Karmakar, of Joginagar (Ward No. III), for the purpose of securing votes for the respondent No. 1, or for inducing the voters to refrain from voting for other candidates. It had, further, been stated that out of the above sum, Rs. 200 was set apart for paying poor voters, and the balance of Rs. 1,000 or thereabout was spent in meeting the costs of supplying electric lights for Thateri Bazar Road in the above ward.

It may incidentally be noted here that point No. 5, which, as we have already noted has not been proved, related to a vow said to have been made by Nabendra Nath Bysak in Sita Nath Karmakar's Thakurbari, to make a further payment of Rs. 800, to meet the costs of supplying electric lights and extending connection to the Thakurbari. In the Election Petition this vow or promise was stated to be a distinct transaction by itself. During the enquiry, however, evidence was given to prove that this promise was at first made at the same time and place as those at which the payment of Rs. 1,200 was said to have been made, and that the vow in the Thakurbari (about which, however, there is no evidence) followed the promise. In our opinion, the variation in the allegation with regard to the time and place of the alleged promise is material, as it tends to show further development in the story since the presentation of the Election Petition. Now the story as to the actual payment of Rs. 1,200 rests primarily on the evidence of P. W. 19, Jogendra Kishore Roy, and P. W. 22, Nripendra Chandra Roy (a Homeopathic Doctor). The story related by both these witnesses is, in our opinion, almost dramatic in its nature. Briefly, according to Jogendra, he had gone to see Iswar Thakur on the morning of the 19th November to enquire what progress had been made with regard to votes for respondent No. 2. Some statements were said to have been made by Iswar to Jogendra, but they were held by us to be inadmissible, as Iswar had not been called. We shall note presently our ground for that refusal. Jogendra would, further, state that, as arranged with Iswar, the former hid himself in one of the latter's rooms, and saw, through a window, the arrival of Nabendra and Murali Pal and others in the verandah of Iswar's temple-house, which was at a distance of 7 or 8 cubits, and was visible from the room where Jogendra was seated. It was further stated by Jogendra that Nabendra then paid Rs. 1,200, with the object and for the purpose alleged, to Sita Nath Karmakar and made a promise of further payment of Rs. 800.

The other witness Nripendra relates more or less the same story. According to him, he happened to have been paying a professional visit at the time to the family of Brindaban, Iswar Thakur's brother, and had watched the incident and had heard the conversation, whilst he was seated in Brindaban's verandah which, according to him, was 5 or 6 cubits from Iswar's temple-house. The Commissioners, however, as a result of the local inspection, are of opinion, that the distance was about 15 feet.

Jogendra's story is, further, to the effect that, after having witnessed the above incident in the verandah of Iswar's temple-house, he went and saw Murali Pal, who was said to have made certain statements, in consequence whereof Jogendra saw respondent No 2, and as a result of consultation between these two it was, as stated by Jogendra, then decided not to pay any money, and also to secure some persons who were not known to respondent No. 1 or to his party, and to take them to Murali Pal's house, to hear what Murali had to say, so that they might be witnesses, in case there were to be subsequently any Election litigation. Efforts were said to have been made to secure two Sub-Deputy Collectors, but it was said that they were not found. Eventually, Jogendra Kishore Ray, accompanied by witness No. 18, Sasanka Mohan Das Gupta (a pleader), witness No. 20, Paresh Chandra Das Gupta (Chief Agent for the National Insurance Company), and one Rajendra Kumar Bose (a Zamindar) went to Murali Pal's house at about 5-30 P.M. the same day, and it was stated by them that Murali made certain statements, as a result whereof on the same evening at about 7-30 or 8 P.M., Jogendra, Rajendra Kumar Bose, Paresh Chandra Das Gupta, and Babu Kshitish Chandra Neogi, M.L.A., went to Gosainbari. Here again it was stated that Murali made a certain statement, whereupon Jogendra was alleged to have stated that he had not brought money, and that he could not commit himself, without consulting respondent No. 2.

Before proceeding further to consider the character of the evidence of the above witnesses, we may note here our reasons for refusing to admit the statements said to have been made by Iswar to Jogendra. Since Iswar had not been called by the petitioner any statement made by him was obviously in the nature of hearsay. No doubt, if properly proved, such statements were relevant, with reference to sections 6, 7 and 9 of the Evidence Act, as urged by the learned Counsel for the petitioner. The learned Counsel, however, relied on section 19 of the Evidence Act, to prove such statements as admissions, and he further cited the cases in I. L. R. 5 Mad. 239, and 20 Indian Cases, 792, in support of his contention. In our opinion, section 19 has no application to the alleged statements made by Iswar, for he was not a person whose position or liability it was necessary to prove as against any party to this enquiry. In this view, then, the rulings cited by the learned Counsel did not help him either. Nor is there anything in Rule 44 (*l*) of the Bengal Electoral Rules or Item No. 3, Part II, Schedule V, to the said Rules, to render Iswar's statements admissible, as was attempted to be urged by the learned Counsel for the petitioner, since this is not a case in which Iswar stands on his trial for having received (with others) illegal gratification, as alleged by the petitioner.

At this stage we may also dispose of the question as to whether the statements said to have been made by Murali to Jogendra on the morning of the 19th of November last, and to Jogendra, Paresh, Rajendra and Sasanka on the afternoon of the said day, and again to Jogendra, Paresh, Rajendra and Babu Kshitish Chandra Neogi, M. L. A., on the evening of that day, are admissible in evidence. We had admitted these statements during the enquiry, as we were given to understand that Murali would be examined and would bear out all these statements, said to have been made by him. Murali, however, was not examined till the 5th of June last, *i.e.*, several days after the above witnesses had been examined. The delay in examining Murali was attributed to illness. In fact, we had to examine him at his own house, as he had produced two certificates from the Civil Surgeon, Dacca, to prove his inability to appear before the Court.

The evidence of Murali, petitioner's witness No. 29, is to the effect that he neither remembered nor knew of any other incident in connection with Thateri Bazar and Joginagar votes, excepting the one in Gosainbari. He further states that he did not remember whether he had seen Jogendra on the morning or on the afternoon of that day. As regards the Gosainbari incident, all that he has said is that, in consequence of 'what the voters present' said, Jogendra at first offered Rs. 2,100, and eventually Rs. 2,200, as far as he could remember, and that Murali then left the place, saying that there was no need for his being there, as there was a talk of money matters. It was urged by the learned Pleader, Rai Bahadur Sasanka Kumar Ghosh, for respondent No. 1, that, having regard to the above evidence of Murali, the statements said to have been made by Murali to the witnesses mentioned above were inadmissible under section 136 of the Indian Evidence Act. In our opinion, this contention must prevail, as those statements of Murali could have, in the circumstances, only been admissible, if we had permitted the learned Counsel for the petitioner, as requested by him, to have cross-examined Murali, under section 154 of the Evidence Act. We, however, refused to grant such permission, as we were perfectly satisfied that Jogendra, Paresh and Sasanka Das Gupta could not be relied upon and that, therefore, there was nothing to show that Murali was an untruthful witness. It may be mentioned here that Murali is a well-to-do man, who once paid super-tax, and we cannot, therefore, conceive that his testimony could have been gained over for any pecuniary consideration. From his evidence, it further appears that he is well disposed towards the petitioner, and had asked people to vote for the latter, and even went to the polling station (Ward No. 3) on behalf of the petitioner, though, on account of great confusion and lateness of the hour, he did not record his vote. Then again, it would appear

that he not only refused to support the Election of respondent No. 1 when he was approached on the subject by that respondent and Babu Jogendra Nath Ray (who was at the time M. L. C.), but that he had also requested the respondent No. 1 to withdraw from the Election, as there was some previous arrangement that this respondent would not stand at the last Election. Another reason was further assigned by Murali for this request—the President has noted it marginally at page 74 of Murali's deposition recorded by him—but we disallowed the statement containing the reason, as it contained a further serious charge of corrupt practice against respondent No. 1, which we could not entertain at that stage of the enquiry, no mention thereof having been made in the Election Petition.

Even if these statements, said to have been made by Murali to the witnesses in question, had been held by us to have been admissible, we should have still refused to have acted upon them, in view of the fact that Murali had contradicted the witnesses, at any rate, as already noted, and we see no reason for disbelieving Murali on the whole.

It has already been noted by us that witnesses Jogendra, Paresh and Sasanka Mohan Das Gupta cannot be relied upon, and we now proceed to set forth our reasons for this conclusion.

As to Jogendra Kishore Ray, he is not only a cousin of the respondent No. 2, but he was also his canvasser at the last Election and was admittedly on intimate terms with that respondent. Further, admittedly, his present house, which he built about 8 or 10 years ago, stood on some land which was a gift of Babu Ananda Chandra Ray (father of respondent No. 2), no deed of gift having been executed yet. It was also admitted by him that before he built his present house he lived for 5 or 6 years in Ananda Babu's house, and that before that he lived in the house of Ananda Babu's step-brother, Nripendra Nath Ray. In addition to these matters, which undoubtedly show that Jogendra practically is living on the bounties of the family of respondent No. 2, it is further very clear from Jogendra's evidence that he has made two statements which, if they do not amount to perjury, still border on perjury. One of these statements related to his petrol business which, it was first alleged by him, belonged to him. It was, however, after some fencing and prevarication, admitted by him that the business stood in the name of respondent No. 2, and the explanation sought to be offered was that, as this business was in the nature of agency or sub-agency under Shaw Wallace & Co., respondent No. 2 had, at the instance of the witness, negotiated with that firm, and that consequently, the business, although belonging to the witness, had continued to remain in the name of respondent No. 2. We are not prepared to accept this explanation, for the simple reason that it was not given in a natural way.

The other statement made by this witness, which borders on perjury, refers to the question as to whether the witness Tapesh Babu was his pleader in a suit brought by Satish Das (son of the sister of the wife of respondent No. 1) against the witness in respect of a strip of land (sweeper's passage leading to the witness's house). Jogendra denied any knowledge as to Tapesh Babu having appeared in that case on his behalf. We have it, however, from the evidence of Babu Gyanendra Narayan Choudhury, who was admittedly Jogendra's pleader in that case, that this pleader had eventually handed over the brief to Tapesh Babu, and further that Jogendra had instructed Gyan Babu and was present at consultations between Gyan Babu and Tapesh Babu.

With respect to the above two statements of Jogendra, it was urged by the learned Counsel for the petitioner that they were not material to the facts of the present case. We are, however, unable to concede to this. As to the statement relating to the petrol business, it was sought by the learned pleader for the respondent No. 1 to prove that this business did not belong to this witness, who was in reality a man of straw, and entirely dependent on respondent No. 2 and his family, and was not, therefore, reliable. Then, with regard to the other statement, it was material for the purpose of showing the intimate relations between Tapesh Babu and the respondent No. 2 as well as Jogendra.

Not only do we entirely disbelieve Jogendra, but we, further, hold that the story related by him is inherently improbable. It is in the evidence of Nabendra Nath Bysak that he had known Iswar Thakur for a very long time, that Iswar is a priest of Rakhal Bysak (Nabendra's son's father-in-law), a Municipal Commissioner, who according to Respondent No. 1 belongs to the latter's party on the Municipal Board. It has, further, been stated by respondent No. 1, that Rakhal Bysak and his brother Braja Gopal owe money to the firm of respondent No. 1. It is, therefore, clear to us that Iswar would have been the last person to have allowed Jogendra to have watched the alleged incident on the morning of the 19th of November in Iswar's temple-house, which would have been exposing respondent No. 1 and Nabendra. Jogendra, however, tried to explain this by stating that Iswar and he had been together at school. To our minds, the explanation cannot be accepted, in view of the friendly relations between Iswar on one side, and respondent No. 1 and Nabendra Babu on the other.

We have already referred to the allegation that efforts were made to secure some Deputy or Sub-Deputy Magistrates, to be taken to Murali Pal's house, to hear what he had to say. If there be any truth in this, we are unable to understand why, instead of going to some Sub-Deputy Magistrates, respondent No. 2, or Jogendra did not at once go to the District Magistrate, who could have easily furnished him with detectives, totally unknown to anybody.

Considerable stress was laid on the evidence of Nripendra Chandra Ray (petitioner's witness No. 22), it being contended strenuously that he was an independent witness. There is really, however, no force in this contention. To begin with, when we inspected Iswar's house, we tried to ascertain whether the alleged conversation in the verandah of Iswar's temple-house could have been heard by this witness, sitting in the closed verandah on the other side, at a distance of about 15 feet. For this purpose the Commissioners Mr. Guha and Rai Kamala Nath Das Bahadur carried on a conversation in a natural way in the closed verandah, whilst the President stood in the verandah of the temple-house trying to listen to their conversation, the others—Pleaders and the public—keeping quiet during the time. The President, however, found it difficult to hear the nature of the conversation. Be this as it may, there is another curious fact to be noted by us. Babu Girish Chandra Das (petitioner's witness No. 27), who was admittedly a great friend of respondent No. 2 and was his canvasser, has deposed to having sent for this witness Nripendra, professionally, 4 or 5 days before Nripendra was examined in this case, although Girish Babu and Nripendra had, as admitted by Girish Babu, never visited each other before. Having regard to the latter admission made by Girish Babu, it is very difficult for us to believe that Nripendra was sent for by Girish Babu, to pay a professional visit, and not for anything in connection with this case.

It is, further, admitted by Nripendra that he does not pay any income-tax. We have taken this admission into consideration, not because it could, by itself, be held as a ground for disbelieving the witness, but in conjunction with the other circumstances relating to this witness, to which we have referred, the admission could at least go to show that he is not as independent as was attempted to be urged by the learned Counsel for the petitioner.

Turning next to the credibility or otherwise of petitioner's witness No. 18 Sasanka Mohan Das Gupta, one of the two witnesses examined to corroborate Jogendra, we find that this witness has admittedly known Jogendra ever since his (witness') childhood, and further that the witness's maternal grandfather, who died only on the 27th of November last, and Ananda Babu were admittedly friends. Sasanka Babu has also stated that he wished respondent No. 2 success at the Election. Obviously, therefore, he is very much interested in respondent No. 2. Apart from this, it is difficult for us to believe his absurd statement to the effect that on the afternoon of the 19th of November Murali made a statement, *of his own accord, without having been questioned, as soon as the party arrived at Murali's house.*

There remains the evidence of Paresh Chandra Das Gupta, the other witness examined to corroborate Jogendra. This witness had also been admittedly a friend of respondent No. 2 for 18 years. It was further admitted by this witness that he had asked some people of his locality and of Ward No. 1 to vote for respondent No. 2, though he was not the latter's canvasser. It is also admitted by this witness that he liked the idea, in the interest of respondent No. 2, of becoming a witness, when asked by Jogendra to accompany the latter to Murali's house on the 19th of November. Paresh Babu, further, added that otherwise he would not have liked to have mixed himself up in this case.

Paresh also admits that he met the petitioner about a fortnight after the election, but that he did not tell the latter about the incident of the 19th of November, although the petitioner told him that day that he was thinking of filing an Election Petition. This was, to say the least of it, strange, and we are unable to accept the explanation attempted to be offered, which was to the effect that both parties were in a hurry then.

Admittedly also Paresh and Nabendra were rival candidates—one for certain—at one of the Municipal elections, at which Nabendra was successful.

In view, then, of the above facts, relating to this witness Paresh, we are unable to hold that he is disinterested, and that his evidence can be safely relied upon.

Rajendra Kumar Bose and Babu Kshitish Chandra Neogi, whose names have transpired as above, were not called by the petitioner. As regards the former, the omission was ascribed to Rajendra Babu's illness. It was also urged by the learned Counsel for the petitioner that, as admittedly Rajendra Babu had once brought a suit against respondent No. 1, both in the latter's capacity as Chairman of the Municipality, and in his private capacity, for damages and for restoration of water-supply, Rajendra would not have been considered an independent witness. We do not, therefore, consider it necessary to comment any further, as regards this omission in respect of Rajendra Babu. No explanation has, however, been offered for the omission to have called Babu Khitish Ch. Neogi, M.L.A., excepting that we were verbally informed that he was attending the session of the Legislative Assembly at Simla. There was no reason, however, for his not having been examined on commission in good time, as the interval allowed between the settlement of the points for determination and the commencement of the enquiry was more than a month.

Sita Nath Karmakar has not been examined either. Possibly, this may be due to the fact that he is admittedly a tenant of the respondent No. 1 in respect of a few rooms at the Calcutta residence (25, Shibtola Street) of respondent No. 1.

We have so far shown how all the witnesses on this point are unreliable. There is also another matter to which we may refer, and that is our inability to understand why such publicity was given by respondent No. 1 or Nabendra, in the matter of the alleged payment under consideration. The verandah of Iswar's temple-house, as we saw at the time of our local inspection, is visible from the public road or lane, and in the ordinary course of affairs we should not have accepted that such a place should be selected for a purpose which was, at any rate, considered improper by some witnesses. We may

mention that in that very house there was another shed on the Southern side, part whereof was not visible from the public lane, and that shed could have been easily selected as a more secluded place, to avoid detection. We cannot, therefore, help resisting the inference that the verandah of Iswar's temple-house was selected, as it was visible both from the room, in which Jogendra was said to have hidden himself, to watch the incident, and also from the closed verandah, where Nripendra was said to have been attending on Brindaban's son and daughter. As a matter of fact, we have no hesitation in holding, for the reasons given above, that there was no such incident on the morning of the 19th of November, as was alleged by the petitioner, in the verandah of Iswar's temple-house. Had there been any such incident in that house, we should have decidedly expected to have found specific mention of *that house* in the Election Petition or in the subsequent petition, filed by the petitioner, furnishing further particulars, as directed by us. It was attempted to be explained that in this subsequent petition, although we had directed further information to be furnished as regards the place at which this incident occurred, it was understood by the learned pleader that the information was required only in respect of the locality. In the Election Petition the locality has been mentioned as Thateri Bazar and Joginagar, and the learned Senior Pleader for the petitioner informed us that he was under the impression that the locality had to be more specifically restricted, and that, therefore, in the subsequent petition the locality was described as Joginagar only. Be this as it may, it was clearly the duty of the petitioner to have mentioned in his Election Petition or, at any rate, in the subsequent petition, as to which house the incident took place in, as, under Rule 33 (2) of the Bengal Electoral Rules, he was bound to furnish "as full a statement as possible" on the subject.

After a very full and anxious consideration, therefore, of the entire evidence with regard to the allegation of payment of Rs. 1,200 or thereabout by Nabendra Nath Bysak, raising point No. 2 for our determination, we have come to the conclusion that there is no truth in this allegation, as it had not been proved by any satisfactory, reliable or convincing evidence.

16. Turning, next, to point No. 3, it arises out of the allegation that Nabendra Nath Bysak, on behalf of respondent No. 1, on the 21st of November last paid a sum of Rs. 300 or thereabout to one Aku Chand (inadvertently described as Chandra in point 3) Bysak of holding No. 2, Gollara Lane (Ward No. III), in order to secure votes of the voters of that ward, as well as of others of the locality. It was further alleged that the above sum was paid for the repairs of the Thakurbari of the holding, and that it was actually spent on such repairs.

The bulk of the evidence adduced by the petitioner in support of the above allegations is unreliable, and there are clear indications that it has been fabricated and procured for consideration. The witnesses examined, in connection with the point now under consideration, are Nos. 6, 7, 8, 15, 23 and 27.

As regards witness No. 6 Jadab, with whom the money was said by witness Aku Chand to have been deposited on the day after the alleged payment, he does not corroborate Aku. The learned Counsel for the petitioner had requested us to declare this witness hostile, but we refused to grant such permission, as the mere fact that the witness's nephew was married to Nabendra's daughter, and that, further, Jadab was the son-in-law of Debendra (who, as stated by Nabendra, was the latter's cousin) was not sufficient to show that the witness was not deposing to the truth. It was, further, sought to be proved that this witness had made a statement in writing on the 9th of March last before the witness No. 27 Babu Girish Chandra Das, pleader. Jadab denied having made this statement, and it appears that his handwriting on Exhibit 2, which was dictated to him in Court, does not resemble that of Exhibit 3. It is true that Girish Babu has stated that Exhibit 3 was written and signed in his presence by Jadab. Girish Babu, however, admitted that the handwriting on Exhibit 2 was not like the ordinary handwriting of Jadab. In the circumstances, therefore, it is difficult for us to come to any definite finding as to whether the handwriting on Exhibit 3 is really that of Jadab. It may be noted here that Exhibit 3 was admitted only for the purpose of comparing the handwriting thereof with that of Exhibit 2, and we cannot, therefore, enter into the merits of that statement, beyond observing that it was admittedly written, at the instance of the petitioner, in presence of Girish Babu, who is admittedly a great friend of respondent No. 2 and was his canvasser, and further looked after his affairs at the Northbrook Hall polling station. It is noteworthy that, according to Girish Babu himself, this statement, Exhibit 3, was left with him, after it had been written, till one or two days before the commencement of this enquiry, when Girish Babu made it over to one of the petitioner's officers.

Witness No. 7 Aku Chand's evidence shows that respondent No. 1 handed over the money to Nabendra, and the latter made it over to the witness. It is significant, however, that neither in the Election Petition nor in the subsequent petition, filed by the petitioner, furnishing further particulars, was there any mention of respondent No. 1 having handed over the money to Nabendra.

Further, in Aku Chand's case also we find a clear indication that his evidence has been procured, for it is admitted by him that on the 29th of December last a written statement was made by him, which was proposed to be sworn to as an affidavit, and that this had been done at the instance of the petitioner.

We may also mention another ground for our not relying on the evidence of Aku Chand, which is to the effect that he is admittedly an undischarged insolvent, has no employment and is sitting idle. No doubt, he has also stated in re-examination that two of his sons worked at a press, but the fact remains that he himself is a man of straw.

The next witness No. 8 Mohendra would depose to having heard of the alleged payment from Aku Chand on the 22nd of November in one Jatindra Nath's *baitakkhana* where many others of the holding had assembled at the time. This witness also seems to have been procured, for he admittedly swore an affidavit on the 3rd of January last, at the instance of the petitioner. It is noteworthy, however, that he has had the hardihood to state that he himself paid Rs. 2-0-3, the costs of the affidavit.

With regard to witness No. 15, Nanda Lal Bysak, if he is the same person who was said to have been present in Jatindra's *baitakkhana* on the morning of 22nd November, he does not corroborate Mahendra. Nanda Lal's evidence is to the effect that, as he was coming downstairs, he heard Aku and Mahendra talking in the open space, just underneath the staircase, about the payment by respondent No. 1 of the balance of the costs of repairs of the *Thakurbari*. This witness, however, added that he did not know why respondent No. 1 had given that money.

The remaining witness on this point is No. 23, Babu Radha Bullub Bysak, a Pleader, who has a share in the holding No. 2, Goailara Lane. Suffice it to say that he does not prove anything.

In our opinion, therefore, the evidence adduced by the petitioner in respect of the point under consideration is extremely unsatisfactory and unreliable, and we, therefore, hold that the allegation giving rise to that point, as to the payment of Rs. 300 or thereabout by Nabendra Nath Bysak, on behalf of respondent No. 1, to Aku Chand, with the object and for the purpose alleged, has not been proved.

17. In connection with points 2 and 3, we may note that both respondent No. 1 and Nabendra Nath Bysak, have, in their evidence, denied the truth of the respective allegations giving rise to those two points. No doubt they are interested witnesses, but on the whole we see no reason for disbelieving them. The discrepancy in the evidence of these two witnesses as to the number of times Nabendra accompanied respondent No. 1 during the latter's visit to Sir Surendra Nath Banerji, in connection with the removal of the three Municipal Commissioners, mentioned by us in another part of this report, is immaterial.

18. We now consider the last point No. 4. It has been raised on the allegation that three persons, named Gour Chandra Das, Radha Raman Das, and Gokhul Chandra Das of Enayetganj (Ward No. VII), paid a sum of Rs. 100, or thereabout on the 21st of November last to Mohim Rishi, Thakur Das Rishi, Jarasindu Rishi and Purna Rishi of Choudhury Bazar of the said ward, to secure their votes for respondent No. 1. The evidence adduced by the petitioner, in support of this allegation, is exceedingly meagre and unreliable. It consists simply of the testimony of two witnesses, named Mon Mohan Rishi, witness No. 1, and Mohim Rishi, witness No. 21 (stated by the learned Counsel for the petitioner to be the same person whose name was mentioned as "Mohini" in the petition, furnishing further particulars as to the names of the payees. With the exception, then, of Mohim, none of the other payees has been examined by the petitioner, on the ground that they had been gained over by respondent No. 1. It is, however, difficult to say how far this statement in the petition, which is neither verified nor supported by an affidavit, is true. The payment was said to have been made for the purpose of defraying the expenses of "*Mohatshob*" and *Krittan* ceremonies, performed by the Rishis. It appears, however, from the evidence of Mohim Rishi that accounts of the "*Krittan*" expenses were kept and that therein the sum in question had been entered on the credit side. Those accounts were not, however, produced.

There is one other matter in connection with this point which we should note. It is in the evidence of Monmohan that he and Jarasindhu filed a petition—bearing the date 29th of November last—before a Deputy Magistrate in charge of Elections in connection with the alleged payment. We cannot make use of this petition, as it was not eventually proved, Monmohan's signature on it only having been proved on the first day of the enquiry. Monmohan would, however, state that he and Jarasindhu filed this petition of their own accord, but we find it difficult to believe this. Be this as it may, it is admitted by Monmohan that he went to one Satish Babu, a Pleader for respondent No. 2 in connection with the petition, and then went to respondent No. 2, in whose house the petition was written by a Muhammadan *chaprasi*. Had the petition been filed by Monmohan and Jarasindhu, of their own accord, we should have certainly expected Monmohan to have ascertained what orders were passed on it, but he has stated that he did not know what order was passed.

We may note that, with regard to the alleged payment we are now considering, it was not alleged that it had been made on behalf of respondent No. 1. Respondent No. 1 has, however, examined Gokul and Gour Chandra, who have denied having made the payment in question. Had we been satisfied with the evidence on the petitioner's side, we should have hesitated in believing Gour Chandra and Gokul, as they are connected in some way or other with respondent No. 1. We are not, however, satisfied with the evidence on the petitioner's side, and it is, therefore, unnecessary to comment any further on the testimony of Gour Chandra and Gokul.

For the above reasons, therefore, we hold that the allegation with regard to the payment of Rs. 100 or thereabout to the Rishis by Gour Chandra and the two other persons named already, for the object of securing votes for the respondent No. 1, has not been proved.

19. In conclusion, having regard to our findings noted in this report on the points, in respect of which evidence has been adduced by the petitioner, we are of opinion that

the petitioner's Election Petition should be dismissed, and we beg to recommend accordingly to His Excellency the Governor of Bengal.

20. There further remains for us to consider the question of costs which should be paid by the petitioner to respondent No. 1. We have noted in the body of this report that the evidence adduced by the petitioner is not only unreliable and unsatisfactory, but that in many cases it has been procured for pecuniary consideration. In other words, to support the very grave and serious charges against the respondent No. 1, the petitioner had fabricated and manipulated evidence. Bearing this in mind, and further the fact that the enquiry has been a very long and protracted one, we further beg to recommend to His Excellency the Governor of Bengal that the petitioner be directed to pay to the respondent No. 1 Rs. 1,500 as pleaders' fees, and also the costs incurred by the respondent No. 1 in Court and process fees and witnesses' expenses.

21. This report is somewhat lengthy, but this was unavoidable, as we had to deal with a number of serious charges against respondent No. 1, and had to consider carefully the mass of evidence placed before us, as well as the arguments on both sides at the end of the enquiry.

NOTIFICATIONS.

PUBLIC.

Simla, the 21st June 1924.

No. F.-472-II-1-28.—The following instructions for the submission, receipt and transmission of memorials and other papers of the same class to His Majesty the King-Emperor of India, or to the Right Honourable the Secretary of State for India in Council are published for general information in supersession of the instructions published with the Home Department notification No. 536, dated the 30th June 1916, as amended by subsequent notifications.

INSTRUCTIONS REGARDING THE SUBMISSION OF MEMORIALS AND OTHER PAPERS OF THE SAME CLASS TO HIS MAJESTY THE KING-EMPEROR OF INDIA, OR TO THE RIGHT HONOURABLE THE SECRETARY OF STATE FOR INDIA IN COUNCIL.

N. B.—These instructions [do not in any way affect or supersede orders issued on the same subject by the military authorities for the guidance of the Army and] do not apply to the cases covered by the appeal rules published by the Secretary of State in Council under section 96B (2) of the Government of India Act.

I.—Every memorial to His Majesty or to the Secretary of State for India in Council should contain all material statements and arguments relied upon by the memorialist and be complete in itself; and it should be accompanied by a letter requesting its transmission to the authority to which it is addressed.

II.—Every memorial to His Majesty or to the Secretary of State for India in Council should be presented through the Local Government having jurisdiction in respect of the subject-matter of the memorial. In cases where no Local Government is in a position to deal with the subject-matter of the memorial, it should be presented through the Local Government within whose jurisdiction the memorialist is or has last been residing or employed or, if there is no Local Government answering to these descriptions, then through the Governor-General in Council.

The Railway Department is regarded as the Local Government in respect of memorials from persons subordinate to it.

III.—Every memorial to His Majesty or to the Secretary of State for India in Council presented through the Government of Madras, Bombay or Bengal should be forwarded direct by the Local Government with a full statement of facts and an expression of opinion, except in the case of a memorial which—

(*a*) relates to—

(*i*) any rule or standing order of the Governor-General in Council; or

(*ii*) any Legislative Proceedings of the Governor-General in Council or an Act to which the Governor-General has assented; or

(*iii*) a case which has been previously under the consideration of the Governor-General in Council; or

(*b*) if granted, would cause expenditure for which the Imperial and not the Local Government would be primarily responsible; or

(*c*) contains a prayer for the exercise of the Royal prerogative of pardon.

Every such memorial should be forwarded with a covering letter containing a full statement of facts and an expression of opinion to the Government of India in the proper department for transmission to the Secretary of State for India in Council.

Note.—If the memorial contains an application for the suspension or remission of a sentence under Chapter XXIX of the Code of Criminal Procedure, 1898 (Act V of 1898), which the Local Government is not competent to dispose of on its own responsibility under the orders contained in rule VI in paragraph I of the Home Department letter No. 1126-37, dated the 10th September 1915, it should be transmitted to the Governor-General in Council and not to the Secretary of State in Council direct.

IV.—Every memorial to His Majesty or to the Secretary of State for India in Council presented through a Local Government, other than the Government of Madras, Bombay or Bengal, should be forwarded by the Local Government, with a full statement of facts and an expression of opinion, to the Government of India in the proper department for transmission to the authority addressed. A memorial submitted by a private person will not ordinarily be forwarded to His Majesty or to the Secretary of State for India in Council unless a petition on the same subject has already been received and rejected by the Governor-General in Council.

V.—Every memorial to His Majesty or to the Secretary of State for India in Council from a person who has been employed in the Army should, if it relates to any matter arising out of his service in the Army, be forwarded through the Army, Divisional or Independent Brigade Commander under whose jurisdiction the memorialist has served and who, from his knowledge of the memorialist or of the particulars of the case, is in a position to make the necessary recommendations. The Army, Divisional or Independent Brigade Commander will forward it with a full statement of facts and an expression of his opinion to the Government of India in the Army Department for transmission to the authority addressed.

VI.—A memorial may be transmitted either in manuscript or in print but must, with all accompanying documents, be properly authenticated by the signature of the memorialist, and must conclude with a specific prayer.

VII.—Memorials, together with their accompanying documents, should be in English. If the accompanying documents must necessarily be forwarded in the vernacular, an English translation should be appended, which should be attested by the signature of the memorialist.

N.B.—It will be well for the transmitting office to examine such translations, and if they are found to be incorrect or faulty, to notice the fact in sending on the memorial.

VIII.—Memorials should be forwarded in duplicate. The originals will invariably be transmitted to England, a copy being retained by the Government of India, if necessary, for record.

IX.—As a general rule, the transmission to England of a memorial duly forwarded through the proper channel should not be delayed by the transmitting Government in India beyond a month after the receipt of the memorial.

X.—The Governments in India are vested with discretionary power to withhold the transmission of memorials addressed to His Majesty or to the Secretary of State for India in Council in the following cases :—

(1) When a memorial is illegible or unintelligible, or contains disrespectful or improper language.

(2) When a second memorial is presented after a decision has already been given by the authority to which it is addressed, and when no new facts or circumstances are adduced which afford grounds for a reconsideration of the case. A memorial addressed to His Majesty by a person whose appeal to the Secretary of State for India in Council has already been rejected, shall be held to be a second memorial to the same authority, and shall not be transmitted.

(3) When a memorial is a mere application for relief, pecuniary or other, which is presented by a person manifestly possessing no claim or advancing a claim of an obviously unsubstantial character, or is so belated that its consideration is clearly impossible.

(4) When a memorial is an application for employment under one of the Governments in India from a person not in the service of the Government or is a request for exemption from the provisions of any law or rule prescribing the qualifications to be possessed by persons in the service of Government or by persons engaging in any profession or employment.

(5) When a memorial is a mere appeal from a judicial decision.

Note—If the memorial is practically an application for the suspension or remission of a sentence under Chapter XXIX of the Code of Criminal Procedure, 1898 (Act V of 1898), or contains such an application, it must be transmitted unless it falls under rule XI, or unless the case is one of which the Local Government or the Governor-General in Council are competent to dispose on their own responsibility under the orders contained in the Home Department letter No. 1126-37, dated the 10th September 1915.

(6) When a memorial is a representation against a decision which, by any law or rule having the force of law, is declared to be final.

(7) When a memorial is addressed by an officer still in the public service and has reference to his prospective claim to pension.

(8) When a memorial is merely a representation against the non-exercise by one of the Governments in India of a discretion vested in such Government by law or rule.

(9) When a memorial is a representation against the action of a private individual or of a body of private individuals regarding the private relations of the memorialist and such individual or body.

(10) When a memorial is a representation against the application of the Civil Service Regulations or the Fundamental Rules or rules framed by the Secretary of State in Council under section 96B (*2*) of the Government of India Act or against the order of a Local Government or of the Governor-General in Council refusing to grant or to recommend a special pension or any pecuniary or other concession not claimable under any law or rule, or a compassionate pension.

Provided that a representation of the nature described in the first part of this clause which calls into question the correctness of the interpretation placed by any authority other than the Secretary of State in Council or any rule framed or approved by the Secretary of State in Council shall be forwarded to the Governor-General in Council, and shall not be liable to be withheld under this clause by the Governor-General in Council if in his opinion there is a reasonable doubt as to the correctness of the interpretation in question.

(11) When a memorial makes a proposal regarding legislation which a Local Government or the Governor-General in Council are not prepared to support.

(12) When a memorial is a representation preferred more than six months after the date on which the memorialist was informed of the orders to which he objects provided that a Local Government or the Governor-General in Council may, at their discretion, extend the period to twelve months, if the delay will facilitate a settlement of the dispute or other good cause is shown.

(13) When the petition is a representation against an order from which under the appeal rules published by the Secretary of State in Council under section 96 B (*2*) of the Government of India Act no appeal lies.

Provided that, subject to what is said in clauses (1), (2) and (4) no appeal to the Secretary of State for India in Council by an officer appointed by him irrespective of the rate of pay drawn, shall be withheld when the appeal involves a question of the interpretation of the terms of the officer's engagement.

XI.—The Governor-General in Council may withhold the transmission of a memorial to His Majesty or to the Secretary of State for India in Council, if the memorialist has not previously memorialised the Governor-General in Council and the Local Government concerned on the same subject; provided that when a memorial contains a prayer for the exercise of the Royal prerogative of pardon and is addressed to His Majesty, it must be transmitted to the Secretary of State for India in Council, unless His Excellency the Viceroy thinks fit to grant the prayer in virtue of his authority to exercise this prerogative on His Majesty's behalf, or unless the memorial is from a convict under sentence of death in which case it may be dealt with in the same way as a memorial falling under the provisions of the note to rule X (5).

The Government of Madras, Bombay or Bengal may withhold the transmission of a memorial which under rule IV they are authorised to forward direct if the memorialist has not previously memorialised the Local Government concerned on the same subject.

XII.—When a memorial is withheld, the memorialist should be informed of the fact and of the reason for it.

XIII.—A list of memorials withheld under the discretionary power conferred by rules X and XI with the reasons for withholding them, will be forwarded quarterly to the Government of India in the case of memorials withheld by Local Governments, and by Government of India in the Department concerned to the Secretary of State for India in Council.

No. F.-472-I-2-23.—The following instructions regarding the submission of petitions to the Government of India are published for general information in supersession of the rules published with the Home Department notification No. 534, dated the 30th June 1916.

INSTRUCTIONS REGARDING THE SUBMISSION OF PETITIONS TO THE GOVERNOR-GENERAL IN COUNCIL.

GENERAL EXPLANATIONS.

1. In these instructions the words "local Government" include a local Administration and the Commander-in-Chief in India, and also, as regards petitioners whose salary is Rs. 50 a month or less the head of a department directly under the Government of India, and Army, Divisional and Independent Brigade Commanders.

2. These instructions do not apply to non-pensionable subordinate, clerical and menial establishments employed in the construction and working of State Railways, to whom Circular No. VI-Railway, Public Works Department, dated the 1st June 1888, applies.

3. These instructions apply, so far as may be, to all memorials, letters and applications, etc., addressed to the Governor-General in Council.

4. These instructions apply also to petitions by persons no longer in military employ who have served in the Army or the Royal Indian Marine, or have been attached to regiments or batteries or the Staff or departments of the Army in any capacity.

5. These instructions do not apply to the cases covered by the rules regulating appeals issued by the Secretary of State under section 96B (2) of the Government of India Act.

SECTION I.

As to the submission of petitions to the Governor-General in Council by private persons or public bodies.

1. Every petition to the Governor-General in Council should be forwarded through the local Government having jurisdiction in respect of the subject-matter of the petition. In cases where no local Government is in a position to deal with the subject-matter of the petition, it should be forwarded through the local Government within whose jurisdiction the petitioner is or has last been residing or employed.

The Railway Department is regarded as the local Government in respect of memorials from persons subordinate to it.

2. A petition may be either in manuscript or in print, but must, with all accompanying documents, be properly authenticated by the signature of the petitioner, or, when the petitioners are numerous, by the signature of one or more of them, and it must conclude with a specific prayer.

3. Every petition should be accompanied by a letter addressed to the local Government requesting its transmission to the Governor-General in Council, and, when any order of a local Government is appealed against, by a copy of such order, as well as of any orders passed in the case by subordinate authorities.

4. Communications on matters connected with any bills before the Indian Legislature may be addressed either in the form of a petition to the Governor-General in Council or in a letter to the Secretary in the Legislative Department, and must in either case be sent to the Secretary in the Legislative Department. Ordinarily such communications will not be answered. Except in the case of the High Court at Fort William, such communications from courts, officials or public bodies should be sent through the local Government.

SECTION II.

As to the submission of petitions by officers in civil employ.

5. Every officer in civil employ wishing to petition the Governor-General in Council should do so separately.

Provided that nothing in this instruction shall apply to representation submitted by recognized associations of Government Service in accordance with such rules as may from time to time be prescribed by the Governor-General in Council.

6. Every petition from an officer in civil employ should be submitted through the head of the office or department to which the petitioner belongs or belonged, and should be forwarded by him through the usual official channel.

7. No officer in civil employ may submit a petition in respect of any matter connected with his official position unless he has some personal interest in the matter.

8. No notice will be taken of a petition relating to any matter connected with the official prospects or position of an officer in civil employ unless it is submitted by the officer himself.

SECTION III.

As to the transmission or withholding of petitions by local Governments.

9. Every petition to the Governor-General in Council should be forwarded by the local Government concerned with a concise statement of the material facts and (unless there are special reasons for not doing so) an expression of opinion.

10. When the petition is not in English, the local Government should transmit a translation with it.

* *Note* (1).—The term "civil employ" includes employment by a local authority.

Note (2).—For the purposes of the instructions in this section a petitioner is considered to be an "officer in civil employ," if he has been previously in civil employ and if his petition relates to any matter connected with his position while in such employ or the circumstances in which he left it.

11. Local Governments are vested with discretionary power to withhold petitions addressed to the Governor-General in Council in the following cases :—

(1) When a petition is illegible or unintelligible, or contains language which, in the opinion of the local Government, is disloyal, disrespectful or improper.

(2) When a previous petition has been disposed of by the Secretary of State for India in Council or the Governor-General in Council, and the petition discloses no new facts or circumstances which afford grounds for a reconsideration of the case.

(3) When a petition is a mere application for relief, pecuniary or other, which is presented by a person manifestly possessing no claim or advancing a claim of an obviously unsubstantial character, or is so belated that its consideration is clearly impossible.

(4) When a petition is an application for employment from a person not in the service of Government : or is a request for exemption from the provisions of any law or rule prescribing the qualifications to be possessed by persons in the service of Government or by persons engaging in any profession or employment.

(5) When a petition is an appeal from a judicial decision with which the executive has no legal power of interference.

Note.—In the following cases, namely :—

(*a*) when a petition is an appeal from a judicial decision in a case in which the Government has reserved any discretion of interference, or

(*b*) when a petition is an appeal from a judicial decision in a suit to which the Government was a party, or

(*c*) when a petition is practically a prayer for mercy or pardon, or contains such a prayer,

the petition must be transmitted to the Governor-General in Council unless it falls under clause (12) of this rule, or unless it is a petition of the kind referred to in clause (*c*) and the case is one of which the local Government is competent to dispose on its own responsibility under the orders contained in the Home Department letter No. 1126—1137, dated the 10th September 1915.

(6) When a petition is a representation against the application of the Civil Service Regulations or the Fundamental Rules or rules framed by the Secretary of State in Council under section 96 B(*2*) of the Government of India Act, or against the order of a local Government refusing to grant or to recommend a special pension or any pecuniary or other concession not claimable under any law or rule, or a compassionate pension.

Provided that a representation of the nature described in the first part of this clause which calls into question the correctness of the interpretation placed by any authority other than the Secretary of State in Council on any rule framed or approved by the Secretary of State in Council shall be forwarded to the Governor-General in Council, and shall not be liable to be withheld under this clause by the Governor in Council if in his opinion there is a reasonable doubt as to the correctness of the interpretation in question.

Chief Secretary to the Government of Bengal (offg.).

RESOLUTION.

SALARIES, ESTABLISHMENTS, ETC.

The 31st May 1924.

No. 1700Ex.—The Government of India have had under their consideration the question of the grant of advances to Government servants for house building and for the purchase of motor-cars, motor-boats, motor-cycles and other conveyances the grant of which is regulated by the rules laid down in articles 155 and 156-8 of the Civil Account Code, Volume I.

2. The practice of making these advances is one of long standing and the Government of India have no present intention of abolishing this concession. Under the existing orders, however, no interest is charged on such advances. Recent experience has shown that advantage is being taken of the concession to an extent which was never contemplated when the system was introduced, and the burden imposed on the public revenues in the shape of loss of interest amounts to a large some of money every year. Moreover, in certain instances which have come to the notice of Government, the system of free advances is proved to have encouraged extravagance and running into debt. The Government of India therefore have come to the conclusion that it is desirable that a moderate rate of interest should be charged on such advances.

3. Local Governments have been consulted and after a consideration of their views the Government of India have decided that advances of the kinds described in paragraph 1 of this Resolution which may be granted on or after the 1st July 1924, will be repayable with interest at the rate of 5 *per cent. per annum*. No interest will be charged on advances previously made.

Ordered that the Resolution be published in the *Gazette of India*.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

REPORT OF THE SELECT COMMITTEE ON THE BILL FURTHER TO AMEND THE INDIAN PENAL CODE.

We, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Penal Code was referred, have considered the Bill and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. We have carefully considered whether the enactment of the Bill would produce a position in which the orthodox Hindu would be placed under the necessity of violating either the law of the land or the requirements of his religion. We recognise that in certain quarters the opinion is still widely entertained that the *Shastras* enjoin the consummation of marriage immediately on the attainment by the wife of the age of puberty, but we are satisfied that this view is rapidly losing ground and that, even where theoretically accepted, it tends to be honoured more in the breach than in the observance. We are also satisfied that failure to consummate marriage on the attainment by the wife of the age of puberty would nowhere constitute a religious offence to the commission of which any form of social penalty or religious expiation would attach. In these circumstances, we consider that the Bill should be proceeded with, but we recommend that its further progress be stayed until there has been an opportunity to elicit public opinion on our Report and on the Bill as amended by us.

3. We have carefully considered the expediency of modifying the provisions of clause 2 of the Bill. A minority of us are of opinion that a cautious advance should be made, and think that the simplest course would be to raise the age of consent to 13 years both within and without the marital relation. A further minority, while accepting the raising of the age outside the marital relation to 14 years, would prefer

within that relation to raise it to 13 years only, or in one case to leave the age at 12 years. The majority of us, however, favour the provision made in the Bill and we have, therefore, left the substance of clause 2 unaltered.

4. Some of those who favour the raising of the age within the marital connection to 13 years only would have been prepared, had their view prevailed, to leave the existing penalty untouched. We are, however, unanimously of opinion that if the age is raised to 14 years both within and without the marital connection, there should be a reduction of the maximum penalty in cases in which the sexual intercourse is between man and wife and the wife is between 12 and 14 years. By a majority we are of opinion that the reduction in question should be to imprisonment of either description for a term not exceeding two years, or fine or both. We have made the necessary addition to section 376 of the Indian Penal Code and a consequential amendment in Schedule II to the Code of Criminal Procedure, 1898, in clauses 3 and 4 which we have inserted in the Bill.

5. The Bill was published in the *Gazette of India*, dated the 23rd February 1924.

6. We think that the Bill has been so altered as to require republication.

MINUTES OF DISSENT.

I am myself in favour of the more cautious course indicated at the beginning of paragraph 3, namely, to raise the age to 13 years for all purposes. I recommend this as an initial step, a further enhancement being taken when social conditions are improved.

W M. HAILEY—10-3-1924.

I agree generaly with the Honourable Sir Malcolm Hailey that this is a matter in which we must advance cautiously—one in which the Legislature must move more or less with public opinion. Puberty, especially in India, does not arrive by clock work at any particular age. Some girls at 12 years are still as undeveloped as if they were of 9 or 10: others are more like girls of 14 or 15. Much depends on physique, heredity and environment. Therefore a public opinion or legislation guided only by puberty would be impractical. But of this there is no doubt that sexual intercourse with a girl *as soon* as she attains puberty is harmful to her, and against the interests of the race generally.

Therefore I should like to see the age of consent raised to 14, and I should certainly support a provision to make non-marital intercourse with a girl under 14 punishable as rape. But so for as husband and wife are concerned, there seem to be practical difficulties in the way of effective legislation. With the husband and the parents of the girl of one mind who can possibly prove that the age of a particular girl is over 12 but under 14? A provision for reduced punishment in such a case will be a dead letter. Medical evidence of age will be found doubtful: vital statistics in most cases will prove of no value: and even if inquisitorial prosecutors can be found to institute cases against husbands in such cases Courts will not convict. If there is a feeling to raise the age all round to 13, I will support it, but I doubt its practical value in marriage cases.

H. J. STANYON, COL., M. L. A.—11-3-1924.

I feel strongly that married persons ought not to be brought within the provision of the section where girls are over 12. The Hindu family system where many relations live together and the high sense of chastity cultivated by its civilisation ought not to be lightly interfered with by legislation. Society fast improves in this direction. Statistics and the opinion of all members prove this endeavour. So law need not interfere at this stage on marital relations.

K. RAMA AIYANGAR.

I am entirely in favour of the age of consent being raised to 14 years as against a stranger. I am also in agreement with the view that even a person to whom a girl has been married, should not consummate the marriage, until the married girl has completed her fourteenth year. But unfortunately marriages are permissible and take place in large numbers before a girl has reached the age of twelve. And in 65·7 cases out of a 100, Indian girls began to menstruate between the ages of 12 and 14. The age of marriage and the period of the consummation of marriage are steadily rising, and I am inclined to believe that as a matter of fact marriages are not consummated in a very large number of cases before a girl has completed her fourteenth year. Still I think we ought not to overlook the fact that there is a widespread idea among the people that a young woman becomes fit to live with her husband as soon as she begins to menstruate. I agree with the opinion that this is a wrong idea. I myself think that a woman should live with her husband only after she has completed her sixteenth year. But in view of the fact that marriages take place before twelve and of the widespread belief to which I have referred above, and also the religious belief prevalent among a considerable section of the people that it is the duty of a husband to live with his wife after she has begun to menstruate, I do not think cohabitation by a husband with his wife who is above the age of 12 should be made punishable by law. I note that it is proposed to inflict a shorter term of punishment on husband than that to which a stranger will be liable. But having given the matter my most careful consideration, I am unable to advise that such a law should be passed at present.

There is a widespread movement in the Hindu community to raise the age of marriage and to delay the period of the consummtion of marriage even when a marriage takes place earlier than 12 years. I think that it will be right at least to postpone the enactment of such a law as is proposed and to leave it to Hindu social and religious reform associations to educate public opinion regarding the evil results of the consummation of marriage before the age of fourteen. I agree with the recommendation that the Bill as amended should be republished to elicit public opinion.

MADAN MOHAN MALAVIYA—15-3-1924.

This Bill promises to be one of the "hardy annuals" before the Assembly. Exactly a Bill of similar nature was thrown out by the Assembly only in 1922.

In my view there appears to be no immediate urgency or necessity for the amendment sought to be effected by this Bill. Opinions were invited on the last occasion. A large majority of the opinions expressed the view that the amendment was not wanted, that it was not opportune, that the society was not prepared for it, that it will unnecessarily cause agitation in the public and that it is against the religious ideas of the Hindus. Since then (1922) there has been no change in the society, nor has there occurred any case or cause which calls for such immediate measure.

The mover of the Bill has failed to make out a case, that the evil is of such a magnitude that legislation is necessary. The evils are much exaggerated. His main reason is infant mortality and secondly the health of the girls. About the first I must say that it may be one of the many reasons and not a very important too. Infant mortality is due more to economic causes, insanitary conditions and want of proper supply of milk.

Similarly the health of the young girls is due to insufficient feeding, congestion, want of exercise, etc. It will be better for the reformers to turn their attention first to these things than to rush all at once to legislature.

The mover seeks mainly to attack marital relations. I am strongly opposed to this, and I deprecate any attempt in such delicate social matters. If this law were to come in force the result would be that as soon as any marriage takes place the police will have to be on the look out to see if any connection takes place. They will have to enter the age of the girl in a register, see if the information is correctly given and at times when suspicion is roused, will have to resort to medical examination of the girl. Plainly put that is what is likely to happen. Looking to the Hindu sentiment, sentiment in high social families, this is simply revolting, revolting to the girl herself, to every member of the family. The result would be the ruin of the life of the girl herself whom it is intended to be protected, as the girl is likely to be abandoned if the husband goes to jail for her sake. This will be an instrument in the hands of the police to harass the people under one pretext or other and to screw out money in some cases and will only lead to very undesirable results.

It is opposed to the Hindu *Shastras*. The interference in religious matters will never be liked by the public and this would prove a source of agitation.

It is opposed to the custom which amount to religion.

The society is not prepared for this legislation. I perfectly agree that the marriageable age is increasing. It has increased to about 12 and in some cases more. Leaving aside the reformers and some communities, marriage takes place when a girl is 12 to 13. Beyond this age, very few girls remain unmarried, unless under special circumstances. Including all communities, communities amongst which marriage takes place after puberty as a matter of course and the reformers, etc., the figure quoted is about 50 per cent. My experience is that over 80 per cent. girls are married at 12 and 80 per cent. husbands stand the risk of being prosecuted. Under the circumstances the law will be either a dead letter or will be dangerous and catastrophic.

I don't agree even to extend the age up to 13 in the case of marital relations.

I will gladly support the extension of the age even up to 16 provided that the age as prescribed for the purpose of the exception is retained.

I agree that public opinion should be invited on this Bill and only in the light of public opinion should the Bill be proceeded with. Widest possible publicity should be given. The Bill with report of the Select Committee should be translated in all vernaculars.

V. N. MUTALIK—13-3-1924

I am strongly opposed to Dr. Gour's amendment of the Indian Penal Code.

The girls in this country do certainly attain puberty at 12, and the Hindu religion enjoins at any rate that it is commonly believed that it does not enjoin early marriage and its consummation as soon as the girls attain puberty. I cannot conceive that you should penalize consummation of marriage, as many parents and guardians still believe that it is religious duty to perform.

I ought to say that early marriages are gradually diminishing amongst the educated people. I think by raising the age of consent to 14 it will be attended with serious consequences to the State.

I agree with Mr. Rangachariar when he says "So far as married women are concerned it will be fraught with great danger, indeed, if the principle underlying the Bill were applied to married women, it would create a lot of trouble, having regard to the social habits and customs prevailing in the country".

Until public opinion is more advanced it will be undesirable to legislate on the basis suggested.

I have great sympathy with the objects of the Bill; but in the present circumstances it is undesirable to legislate in the matter,

I am fortified by opinion of different Governments and Judges of several Courts.

S. C. GHOSE—8-3-1924.

PENSIONS AND GRATUITIES.
FUNDS, SERVICE AND OTHERS.

Simla, the 25th June 1924.

No. F.-30-II-F.E.—The following report of the Government (India Office) Actuary on the valuation of the Indian Civil Service Family Pension Scheme as at 31st March 1923, is published for general information.

INDIAN CIVIL SERVICE FAMILY PENSIONS.

Report by the Government Actuary on the Valuation as at 31st March 1923.

GOVERNMENT ACTUARY'S DEPARTMENT,
TREASURY CHAMBERS, WHITEHALL,
22nd March 1924.

MY LORD,

In accordance with the request of the Controller of Pension Funds, I have investigated the financial position of the Indian Civil Service Family Pension Scheme as at 31st March 1923.

2. When the late Sir George Francis Hardy, K.C.B., valued the liabilities as at 31st March 1911, he made an exhaustive investigation into the past experience of the scheme and appended to his report a table showing the experience rates deduced.

A careful investigation, based on data supplied by the Controller of Funds, has been made into the experience as regards mortality, marriage, etc, for the period of five years ending 31st March 1923, with a view to considering what if any, modifications are necessary in the tables referred to, in view of changing conditions. The results of the investigation in respect of each factor entering into the experience are briefly described in the following paragraphs, and the consequent modifications which have been made in the rates in certain instances for the purpose of the present valuation are stated.

Mortality rates of subscribers—Active and Retired.

3. The actual number of deaths, including four deaths attributable to the war, was 60 as against 74·5 expected. In the previous inter-valuation period, the actual number of deaths was greater than that expected. Whilst there is some evidence that, in the last quinquennium the mortality of subscribers has exhibited some decline, it cannot yet be said, in my opinion, that the decline has become a permanent feature. In the circumstances, I have not thought it proper to make any alteration in the rates of mortality previously used, but as these rates are of paramount importance in the finances of a widows' and orphans' fund, it will be necessary to continue to keep them under careful review.

Mortality rates of the wives of subscribers.

4. The actual number of deaths (29) was substantially the same as that expected (27) and Sir George Hardy's rates were therefore retained.

Mortality rates of sons and daughters (incumbent pensioners and the childern of living subscribers).

5. In the case of sons, the actual number of deaths, including four war deaths, was 21, compared with 27 expected. For daughters, the actual number of deaths was 17 compared with 26 expected. The defect in the number of deaths appeared to be well marked at all ages, and I have accordingly decided to reduce Sir George Hardy's rates by 40 per cent.

Mortality rates of widows.

6. The experience was very small; the actual number of deaths was four and the expected three. A reduction to correspond with the reduction made in the daughters'

rates did not appear, therefore, to be justifiable, and I have, therefore, retained Sir George Hardy's rates

Issue rates.

7. (*a*) Sons. The actual number of births was 220 and the expected 243. War conditions have had some effect on the number of births, and an alteration of the rates did not appear to be necessary. I have, therefore, used Sir George Hardy's rates.

(*b*) Daughters. The actual number of births was 212 and the expected 201. The number of daughters born was only about 3½ per cent. less than the number of sons born, a feature which was observed by Mr. J. D. Watson, when investigating the experience of the previous valuation period, and is in general agreement with other birth statistics. Sir George Hardy's rates, however, represented about 20 per cent. fewer births of daughters, than births of sons, and Mr. Watson decided to treat the rates for sons as being applicable also to births of daughters. This course is justified by the further experience now available, and I have adopted it for the present valuation.

Marriage rates of bachelors and widowers.

8. The actual number of marriages was 229 and the expected 186. The excess in the actual number of marriages over the number expected reflects the abnormal conditions obtaining after the war, and in my judgment there are no grounds at present for modifying Sir George Hardy's rates in respect of future marriages.

Marriage rates of daughters.

9. The actual number of marriages was 63 and the expected 20, whilst, in the previous investigation, Mr. Watson stated that the actual number of marriages was 45 and the expected 19. It appeared, therefore, that Sir George Hardy's rates have been somewhat too low, even allowing for the special conditions due to the war, and are therefore unduly stringent as the basis for the valuation. As there were not yet sufficient data on this head to yield an authoritative basis from the experience of the fund itself it was necessary to turn to other relevant statistics. After careful consideration, the rates (marriages of daughters) used by Sir George Hardy for the Indian Military Service Family Pension Scheme were adopted. The expected number of marriages on this basis was 38.

Remarriage rates of widows.

10. The actual number of remarriages was 15 and the number expected 3.

Similar remarks apply here as in the case of daughters' marriages, and Sir George Hardy's rates (remarriages of widows) used in the valuation of the Indian Military Service Family Pension Scheme were adopted. The expected number of remarriages on this basis was 5.

Retirement of subscribers.

11. Members' contributions cease on retirement, and the age at which subscribers retire is therefore of great importance in the valuation.

In the inter-valuation period, 1918-23, the average age at retirement of subscribers was 49·7 years. In previous valuation, it has been assumed that all the subscribers retired at a fixed age and at the last valuation at 1918 the average age, at retirement was assumed to be rather lower than age 50. At those valuations, however, the number of subscribers who had reached the ages at which retirements might be expected was small, and the financial effect of assuming an average fixed age at retirement was found to be practically the same as if a rate of retirement at each age, deduced from the experience of the scheme, had been adopted as a basis for the valuation. The following table shows how the proportion of active members over age 50 has increased :—

No. of members.		31st March 1918.		31st March 1923.	
		Active.	Retired	Active.	Retired.
(*a*) Under age 50	...	1,134	51	1,009	29
(*b*) Aged 50 and over	...	84	119	207	276
Total	...	1,218	170	1,216	305

It appeared from these figures that with the increasing age of the scheme and the consequent larger numbers at relatively advanced ages, the assumption of an average age at retirement was no longer valid, and that effect should be given to the rates of retirement at each age. It was, however, doubtful whether the rates derived from the recent experience of the fund were at all authoritative, having regard to the postponement of retirements during the war. It was clearly necessary to take a cautious view of the extent to which retirement would be deferred in future at the older ages, and after

consideration of the past experience of the fund, I have decided to use the following rates of retirement for the present valuation :—

Age.	Central retirement rate.	Age.	Central retirement rate.
27	·0030	43	·0065
28	·0030	44	·0090
29	·0030	45	·013
30	·0030	46	·019
31	·0035	47	·030
32	·0040	48	·100
33	·0040	49	·2
34	·0045	50	·3
35	·0045	51	·4
36	·0045	52	·5
37	·0045	53	·6
38	·0045	54	·7
39	·0045	55	·8
40	·0050	56	·9
41	·0050	57	1·0
42	·0055	58	2·0

This change in the valuation basis tends to reduce the reserves held, especially in the case of the older lives, the amount so released falling into surplus. In my opinion, the basis now adopted proceeds as far in this direction as is consistent with safety pending further experience of the rate of retirement under normal conditions.

Retirements under the Regulations dealing with Premature Retirement on Proportionate Pension (Comd. 1727 of 1922) were not taken into account in the investigation of the retirement rate, as such cases, which numbered 18 up to the valuation date, are of a special and temporary nature. Reference is made to the special financial arrangements for these retirements in paragraph 22 of this Report.

Number and ages of subscribers entering the service.

12. The following table gives the numbers and average ages of subscribers entering the service :—

Year of entry.	Number of new entrants.	Average age at entry.
1918	5	24·6
1919	26	25·8
1920	61	26·0
1921	77	25·9
1922	42	24·8

This table illustrates the effects of the abnormal conditions arising out of the war, but no alteration in the assumption of an average age at entry of 24 hitherto adopted appears to be necessary.

Withdrawals of subscribers.

13. Under the existing rules of the scheme, the withdrawal of a member is a very exceptional occurrence. Only two such withdrawals occurred during the intervaluation period. The effect of withdrawals was ignored in the valuation of the liabilities and assets.

Basis of valuation.

14. The valuation has been made upon the basis of a rate of interest of 4 per cent. in accordance with instructions.

The valuation has been based upon the rates of mortality, marriage, etc., described in the foregoing paragraphs.

Results of the valuation.

15. The Valuation Balance Sheet appended shows the results of the valuation upon the assumption that the full rates of contributions and donations according to the regulations are payable as from the valuation date ; and that the present increase of 25 per cent. to incumbent pensioners is not continued beyond 31st December 1924, the date provisionally fixed for its termination in Despatch (Accounts No. 6) of 15th April 1920.

16. It will be seen that the valuation shows a balance of assets over liabilities of 749,557*l*. It should be stated at once that this balance is exceptional, and is not a surplus which can be regarded as a result of the normal profits of the fund during the intervaluation period. As will be shown later, the precise manner in which this surplus of assets over liabilities has arisen has an important bearing upon the principles upon which it should be distributed among the members ; I have therefore examined the sources from which this surplus has been derived, and in the following paragraph are shown the approximate amounts which can be attributed to the various factors which have been in operation.

17. At the last valuation a surplus of 223,239*l.* was shown, out of which it was finally decided to allocate 102,168*l.* for the purpose of providing for a reduction of 12½ per cent. in the contibutions, the balance of 121,071*l.* being carried forward. At the same time, a temporary increase of 25 per cent. in the amount of pensions was granted up to 31st December 1924, but this increase was to be provided out of the excess interest earned by the fund, and was not specifically a charge upon the valuation surplus. In the result the sum carried forward, increased with interest at the valuation rate, amounted to some 271,000*l.* at 31st March 1923, out of which had to be provided an amount of approximately 63,000*l.* representing the value of the 12½ per cent. reduction in contributions with interest. There was, therefore, on 31st March 1923, a balance of 208,000*l.* representing the unexhausted amount of profits earned by the fund in periods previous to 1918.

The ordinary profits of the inter-valuation period consist of interest earned in excess of the valuation rate of 4 per cent., and of the balance of various items of profit and loss representing the difference between the actual working of the fund and the assumption underlying the valuation tables. In total these profits amounted to over 300,000*l.* against which has to be charged 45,000*l.*, being the cost of granting the 25 per cent. increase in benefits.

The third item which goes to make up the full sum of 749,557*l.* mentioned above amounts to about 250,000*l.* and represents the figure by which the valuation reserves have been reduced as a result of the various alterations in the valuation basis described in paragraphs 5 to 11 above. This item is in no sense a profit arising from the past working of the fund; it is in fact a capitalisation of all profits which would have been shown at later valuations if the original basis of valuation had remained undisturbed. In this respect it is an anticipation of profit, with a view to its allocation at the present time rather than at future valuations.

18. The above considerations have an important bearing upon the policy which should be adopted in dealing with the surplus shown. The practice of granting temporary increases in benefits is not an entirely satisfactory one, and would not usually be appropriate except where the items of profit were small and uncertain, or where other considerations made it desirable to grant a larger increase in the pension for a limited period than could be justified as a permanent measure. In the present instance, as has been shown above, the surplus is large, and the sources from which it has been derived are such that it would be inequitable to use the whole or any substantial part of the moneys in increasing the pensions only of existing incumbents and of those who may become incumbents within the next few years. Much of the surplus has been derived from the exceptional conditions arising during the war, and, in particular, large profits have been made through the fund obtaining the advantage of the prevailing high rates of interest, while at the same time being protected against the consequences of depreciation of the corpus of the fund. These profits are clearly the property of the members as a whole and this remark applies in equal measure to the sum of 250,000*l.* represented by the reduction in the valuation reserves. In these circustances, a considerable proportion of the surplus should be applied for the permanent benefit of all the members and I understand that it is your Lordship's wish that an estimate should be given of the cost of granting the benefit in the form of a permanent addition to pensions.

19. Whilst the present high rates of interest are current, it is clear that substantial profits will continue to be earned by the fund. It seems not unreasonable, therefore, to apply part of the surplus in making a permanent addition to benefits as aforesaid, and to rely upon the accruing profits as a source from which a further augmentation can be made from time to time in accordance with the experience of the working of the fund. I have made calculations to show the cost of making a permanent increase of 25 per cent. to the benefits, together with an additional increase of 25 per cent. from the 1st January 1925 to 31st December 1929. I have assumed that of the permanent increase the Government will bear its rateable proportion, but that the whole of the temporary increase will be borne by the fund. The result of these calculations shows that these increases cannot be made unless the contributions are retained at their full figure, *i.e.*, without the 12½ per cent. abatement, bearing in mind that provision has to be made for this abatement from the valuation date to, say, the end of the present year.

The figures are as follows :—

	£
Value of permanent increase of 25 per cent. in pensions, as from 1st January 1925, the cost to be borne rateably by the Government and by the fund	639,960
Value of increase of 25 per cent. in pensions during the five years 1st January 1925 to 31st December 1929, the total cost of the increase to be borne by the fund	76,100
Estimated value of reduction of 12½ per cent. in contributions between 1st April 1923 and 31st December 1924 ...	20,280
Balance of surplus to be carried forward	13,217
Total surplus ...	749,557

If the whole cost of the increases, both permanent and temporary, were to be borne by the fund, the surplus would be insufficient to admit of a permanent addition to pensions of so much as 25 per cent. I think, however, it would be legitimate to make a

permanent increase of 20 per cent. and to preserve the total addition of 50 per cent. to pensions by making a temporary increase of 30 per cent. The position under this arrangement would be as follows :—

	£
Value of permanent increase of 20 per cent. in pensions, as from 1st January 1925, the whole cost of the increase to be borne by the fund	583,022
Value of increase of 30 per cent. in pensions during the five years 1st January 1925 to 31st December 1929, the whole cost of the increase to be borne by the fund ...	91,320
Estimated value of reduction of 12½ per cent. in contributions between 1st April 1923 and 31st December 1924 ...	20,280
Balance of surplus to be carried forward	54,935
Total surplus	749,557

Under either of the above scheme the balance to be carried forward as a margin against contingencies is small, but I feel that at the present time, when the rate of interest credited to the fund is high, there is no reason for preserving any substantial further margin.

20. It will be seen that the first of the above proposals would result in a permanent addition of 25 per cent. to benefits and a temporary addition of a further 25 per cent. up to 31st December 1929. The grant of such substantial increases raises the question as to whether such advantages can be allowed to new entrants to the fund. If new entrants are to be given identical treatment, I consider that the contribution at the initial age should be such as will be sufficient to provide the ordinary benefits of the fund increased by the 25 per cent. which it is now proposed to make permanent. In such circumstances, it would, I think, be equitable to allow new entrants to share in surpluses *pari passu* with the older members, so that they would obtain temporary increases in benefits over and above the basic rates on the same lines as the other members of the fund. I find that on the present valuation basis, the rates of contribution of the new entrant contain a margin of rather more than 10 per cent.; they are, therefore, insufficient to admit of a permanent increase of 25 per cent. in the basic rates.

In order to deal with this position, three courses are open :—

(1) *To close the existing fund to new entrants, and to start a fresh fund for entrants subsequent to the end of this year.*

This would be a drastic step, which in my opinion is unnecessary for the protection of the rights of existing members. I think that either of the plans outlined in (2) and (3) below will secure equity to all concerned, and will at the same time obviate the undesirable results of splitting the members into two funds with the consequent disadvantages resulting when small numbers are segregated.

(2) *To increase the basic rate of subscription for new members by 12½ per cent.*

If this increase were made the contribution (taking account of the existing margin) would permit of an increase of 25 per cent. in the tabular benefits. As these calculations have been made on the basis of the valuation tables in use and of the valuation rate of interest, it may reasonably be expected that the new members will provide their share of profit from time to time, and that the interests of the older members will not be endangered by allowing the new entrants to share equally in the temporary increase in benefits as well as in the permanent increase rendered possible by the addition made to the rates of contribution.

(3) *By retaining the contributions for all classes as at present (apart from the 12½ per cent. abatement) and making a permanent increase of 10 per cent. in the benefits of members admitted to the fund subsequently to 31st March 1923.*

This course is an alternative to (2), and would have, roughly, the same effect as between the different classes of members, since the new members would obtain the benefit of the margin in the contributions by way of a permanent addition to pensions. They would also be entitled to participate in temporary increases of pensions on the same footing as the other members. This course has the disadvantage of instituting differential rates of benefit within the scheme.

The above proposals would also be equitable if the second scheme shown in paragraph 19 were instituted.

Non-European Members of the Indian Civil Service.

21. In examining the working of the fund, I have been struck by the fact that considerable difference exists in regard to the mortality, marriage, etc., experience of the

European and non-European members. It is true that the latter class are not yet sufficient in number to furnish any reliable basis for calculations, but it is nevertheless clear that in many respects the experience in respect of them differs very materially from that of the other members These differences in experience are likely to increase in importance in the future as the proportion of non-European members increases, and while it is impossible to measure their effect, it is evident that they cannot be ignored. If the experience of the non-European members should eventually show that the risk in respect of them is less than the average, then it is in equitable that they should be charged the same rates of contribution as the European members; on the other hand should the converse be the case, it is not right that the European members should be called upon to share in the loss which must result from charging contributions on the basis of the existing rules. Having regard to the clearly marked points of difference which have been shown, I consider that the time has arrived when the fund should be closed to non-European members, separate arrangements being made in respect of them.

Amount due from Indian Government in respect of premature retirement of members.

22. In the Premature Retirement Rules (Cmd. 2025) an undertaking is given [paragraph 12 (2)] that the Secretary of State in Council shall make good to the fund under a suitable procedure any loss which may be estimated to be thrown upon it by the operation of the rules.

At the date of the valuation 18 officers had exercised the option conceded to them in paragraph 12 of the rules. Since that date a substantially larger number of officers have adopted one of the alternative courses under that rule. The amount due to the fund in respect of these 18 members is relatively small, and I suggest that the consideration of the sum due to the fund be deferred until the next valuation, by which date it should be possible to trace the full effect of the rules on the fund, and to make a final settlement.

I am, etc.,

ALFRED HENRY,
Deputy Government Actuary.

The Secretary of State for India.

ACT NO. XIV OF 1924.

An Act to provide for the fostering and development of the steel industry in British India.

WHEREAS it is expedient, in pursuance of the policy of discriminating protection of industries in British India with due regard to the well-being of the community, to provide for the fostering and development of the steel industry by increasing the import duties leviable on certain iron and steel articles and by enabling bounties to be granted to manufacturers in British India of certain such articles, and to determine the duties and bounties which shall be payable in respect of such articles during the first three years of the application of that policy to the said industry ; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Steel Industry (Protection) Act, 1924.

2. (*1*) To section 3 of the Indian Traffic Act, 1894, the following sub-section shall be added, namely :— VIII of 1894

"(*4*) If the Governor General in Council is satisfied, after such inquiry as he thinks necessary, that articles of any class chargeable with duty under Part VII of the second Schedule are being imported into British India from any place outside India at such a price as is likely to render ineffective the protection intended to be afforded by such duty to similar articles manufactured in India, he may, by notification in the *Gazette of India*, increase such duty to such extent as he thinks necessary either generally or in respect of such articles when imported from or manufactured in any country or countries specified in the notification."

(2) In the Second Schedule to the same Act there shall be made the amendments specified in the Schedule to this Act.

WIRELESS DISTRESS SIGNAL—WARNING AS TO MISUSE.

No. 254 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 737 of 1924), are republished :—

The attention of the Board of Trade and the Postmaster-General has been called to cases in which the wireless distress signal has been sent out by ships (including British ships) which were not at the time in immediate danger.

The signal SOS (. . . — — — . . .) is prescribed by the International Radiotelegraph Convention as the signal to be used by ships *in distress* and under the international regulations, which all ships fitted with wireless telegraph apparatus must obey, stations hearing the distress signal must suspend all ordinary correspondence until the call has been dealt with.

Masters of ships are under international obligation to render assistance to every person in danger of being lost at sea.

The sending out of the distress signal seriously interrupts wireless telegraph traffic and results in ships being diverted from their course and delayed. It must accordingly be used only when the ship is in immediate danger and urgently in need of help. Misuse of the signal will inevitably lead to its being ignored in a case of real necessity.

Full particulars of any well authenticated case of misuse should be reported to the Board of Trade or the General Post Office, London.

WIRELESS DISTRESS SIGNAL—WARNING AS TO MISUSE.

No. 254 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 737 of 1924), are republished :—

The attention of the Board of Trade and the Postmaster-General has been called to cases in which the wireless distress signal has been sent out by ships (including British ships) which were not at the time in immediate danger.

The signal SOS (. . . — — — . . .) is prescribed by the International Radiotelegraph Convention as the signal to be used by ships *in distress* and under the international regulations, which all ships fitted with wireless telegraph apparatus must obey, stations hearing the distress signal must suspend all ordinary correspondence until the call has been dealt with.

Masters of ships are under international obligation to render assistance to every person in danger of being lost at sea.

The sending out of the distress signal seriously interrupts wireless telegraph traffic and results in ships being diverted from their course and delayed. It must accordingly be used only when the ship is in immediate danger and urgently in need of help. Misuse of the signal will inevitably lead to its being ignored in a case of real necessity.

Full particulars of any well authenticated case of misuse should be reported to the Board of Trade or the General Post Office, London.

CALCUTTA CUSTOM HOUSE, *the 8th July 1924.*

RESOLUTION ON THE REPORT ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1923.

GOVERNMENT OF BENGAL.

POLICE DEPARTMENT.

CALCUTTA, THE 15TH JULY 1924.

RESOLUTION—No. 2001 Pl.

READ—

The Report on the Police Administration in the town of Calcutta and its suburbs for the year 1923.

The office of Commissioner of Police was held by Sir Reginald Clarke, KT., C.I.E., until the 26th February 1923. Mr. C. A. Tegart, C.I.E., M.V.O., succeeded him on the 11th March.

Crime statistics.—The volume of crime decreased during the year. Too much stress should not be placed on the annual total for true cognizable cases, 98,308 in 1923 as against 1,05,751 in 1922, as over 75 per cent. of the cases included are those of minor offences under the Police Acts, the Cruelty to Animals Act, and the Hackney Carriages Act; and a decrease of over 14,000 in cases under the Police Acts dominates the statistics. The details of serious crime however definitely indicate an improvement on the previous year under the heads of rioting, robbery, and theft. The percentage of property recovered to that stolen remained just above 25 per cent., though not quite up to the level of the previous year.

Goondas' Act.—The Goondas' Act of 1923 was passed by the Bengal Legislative Council during the year under review to meet the situation caused by the prevalence of robbery in North Calcutta; and the results of strengthening the hands of the Commissioner of Police by this salutary measure merit special attention. The number of true cases of robbery reported decreased from 122 to 86, the greater number of which occurred in the early months of the year before this legislation was carried or its effects could be felt. Thirty-five criminals were removed from the city under this Act during the latter half of the year. In addition special steps were taken to strengthen the patrol force in the Burra Bazar area, though only at the cost of weakening that normally available for other parts of the town; and an extensive and successful raid was carried out on a gang of local criminals believed to be responsible for over a hundred crimes. Apart from the suppression of goondas perhaps the most valuable work done by the Detective Department lay in the protection given to the paper currency by the discovery of two gangs of note forgers.

Revolutionary crime.—A deplorable feature of the year was the recrudescence of revolutionary crime. Four cases of robbery or attempted robbery with firearms, in two cases attended by murder, occurred in Calcutta between May and August and their investigation led to the discovery of a conspiracy among a section of Bengal revolutionaries for the commission of dacoity, if necessary at the cost of human life, with a view to collecting funds for the furtherance of revolutionary schemes. The affair which attracted most attention was the shooting of the Post Master of the Sankaritollah Post Office in an unsuccessful attempt to rob the office. It is satisfactory to record that in this case one of the miscreants was pursued and arrested with the help of passers-by who were not deterred by shots from the fugitive from joining in the pursuit.

Traffic control.—During the last three years there has been a small but steady decline in the number of street accidents, which is the more satisfactory in view of the increase in the number of motor-vehicles on the

streets. During the year under review 99 persons were killed and 1,340 injured in the traffic. The toll of the Calcutta streets still stands therefore at an average of four persons injured a day. but while in 1921 there was one person injured in motor-vehicle accidents for every eight motor-vehicles registered in 1923 the corresponding proportion had fallen to 1 : 16. In addition to the other difficulties of the Calcutta traffic problem it is unfortunate that through the inadequacy of his force the Commissioner of Police has found it necessary to shorten the period of training for constables from six to four and a half months. The Hackney Carriage Department worked at a loss during the year, which it is hoped to eliminate by the revision of the fees recently brought into effect. The expenditure on the Motor Vehicles Department on the other hand was considerably less than receipts under the Motor Vehicles Act.

Police housing.—The Commissioner of Police calls attention again to the defective housing of his force and contrasts it with the position in Bombay where this evil has been remedied The system of accommodating the Calcutta Police in rented premises must be condemned alike on the grounds of economy of administration and of the discipline and well being of the force. The lower ranks are scattered through a large number of hired buildings in which housing room is inadequate and conditions are unsatisfactory often to the point of injury to health. The expenditure on rents is constantly increasing in conformity with the upward tendency of rents in Calcutta, while the expiry of the Rent Act in its original form has left the police, in the case of the larger buildings, without protection against further enhancements. As it is, the capitalised value of the rents already paid exceeds the cost of providing accommodation for the same force on improved lines by the construction of Government buildings at a few suitable points in the city. It is as much in the interest of Government as a whole, as of the police department, to relieve the Provincial budget of the recurring charges on account of Calcutta Police rents, when this can be done by a measure which will at the same time contribute so largely to the improvement of the force. The Governor in Council trusts therefore that a practical beginning may soon be made with the building scheme for the urban area which has been so long under preparation.

Retrenchment measures.—The call for retrenchment at the beginning of the year was met by reductions in the Port Police, the Hackney Carriage Department and the Detective Department ; and also by deferring necessary measures of improvement such as the provision of adequate motor transport for the conveyance of under-trial prisoners between the Courts and the Jail. Apart from the outbreak of revolutionary crime already noticed the year was quiet on the whole. and Calcutta was happily free from communal or industrial strife.

The Governor in Council has read with pleasure the list of officers whose good services have been brought to his notice, and desires to congratulate Mr. Tegart and his force on the satisfactory record of the year.

ORDER.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division, for information.

Ordered also that a copy of the resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

A ruler or subject of a State in India should apply, through his Durbar, to the Chief Secretary of the Governor's province in which he wishes to serve or of the Governor's province included in the area in which he wishes to serve, *vide* margin. No candidate shall make more than one application in any year. The application must be forwarded, with the necessary documents, to the District officer* not later than the 1st September 1924.

No application received after that date will be considered

8. *Canvassing.*—Any candidate attempting to canvas either by himself or through the agency of relatives, friends, patrons or officials will be disqualified.

9. *Medical examination.*—Those candidates who are successful in the literary examination will be required shortly after the result of that examination is declared to undergo a strict examination by a Medical Board† (*vide* Appendix III) in Calcutta as to their physique and capacity for active out-door work. They will be required to pay a fee of Rs. 16 for such examination. Instructions as to the date and time of this examination will be issued to successful candidates by the Government of Bengal.

* The term District Officer includes the Chief Presidency Magistrate, Calcutta, for candidates in Calcutta

† With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the Police Service, it is suggested that, before any such preparation is begun, candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the points which are indicated in Appendix III.

It is to be understood that this private examination is merely suggested to lessen the chances of disappointment and that it is by no means intended to take the place of, or to influence in any way, the official medical examination

10. *Appointment of probationers.*—The Secretary of State will nominate as probationers such competitors as are selected by the Local Government.

11. *Riding.*—A knowledge of riding is not insisted on as an essential qualification before nomination. But probationers will be subjected to a riding test at the termination of their probationary period; failure to pass this test will disqualify the candidate for confirmation in the service.

12. Successful candidates will ordinarily be allotted as probationers to their own provinces. The allotment will be subject to the right of the Government of India to make transfers in the interest of the public service.

13. (*a*) *Uniform.*—It is an ordinary condition of appointment that a successful candidate shall provide himself or be provided by his parents or guardians, with his uniform or the cost thereof. The Government of Bengal will make a contributory grant of Rs. 400 towards the cost of uniform.

(*b*) *Horse and saddlery.*—A successful candidate must when required to do so provide himself with a suitable horse and saddlery at his own expense. Government will make to a newly appointed officer a grant of a sum not exceeding Rs. 600 towards the cost of such horse and saddlery.

14. *Salary.*—A probationer will draw pay at the rate of Rs. 325 and Rs. 350 a month during the first and second years of probation, respectively, and on confirmation will draw pay according to the time-scale of pay sanctioned for the Indian Police Service. This is set out in Appendix IV.

15. *Period of probation.*—Probationers will be required to qualify by passing the necessary departmental examinations as well as the riding test (*see* rule 11) within two years of their selection.

16. *Liabilitiy of probationers to removal.*—Any probationer who may fail to pass the prescribed examinations within two years, or be found unfit for Police duties, will be liable to removal from the service.

17. *Promotion after probation.*—No probationer will be entitled to confirmation until he has passed the prescribed departmental examinations, including the riding test.

18. *Seniority.*—Probationers recruited in India at the examination held in or about December will be placed below the probationers recruited in the United Kingdom at the examination held in the preceding month of June, and probationers appointed from the same examination will be arranged in the order of passing the examination.

19. *Leave, Pension and Provident Fund.*—Officers joining the Indian Police under these conditions will find a summary of information regarding leave, pension, and provident fund, in Appendices V, VI and VII. Subscription to the provident fund is not compulsory in the case of Indians.

20. *Articles of agreement.*—Probationers will be required to sign articles of agreement, describing the terms and conditions of their appointment before the appointment is made.

ANNEXURE.

COMPULSORY MATHEMATICS.

The course is as follows :—

(1) *Arithmetic.*—The whole of Arithmetic. (The use of Algebraical symbols and processes will be permitted.)

(2) *Algebra.*— The four simple rules, Fractions, Greatest Common Measure, Least Common Multiple, Factors, Remainder Theorem, Proportion, Simple Equations of one or more unknown quantities with easy problems, Quadratic Equations, with easy problems and theory of Quadratic Equations, Graphs and their applications.

The questions on Theoretical Geometry will consist of Theorems contained in the annexed Schedule B, together with easy extensions and deductions with numerical illustrations. Any proof of a proposition will be accepted which appears to the Examiners to form part of a systematic treatment of the subject ; the order in which the Theorems are stated in Schedule B is not imposed as the sequence of their treatment. In the proof of the Theorems hypothetical constructions will be permitted.

(*Candidates will be provided with squared paper.*)

SCHEDULE A.

Bisections of angles and of straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

Simple cases of the construction from sufficient data of triangles and quadrilaterals.

Division of straight lines into a given number of equal parts or into parts in any given proportions.

Construction of a triangle equal in area to a given polygon.

Construction of tangents to a circle and of common tangents to two circles.

Simple cases of the construction of circles from sufficient data.

Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.

Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.

Construction of a square equal in area to a given polygon.

SCHEDULE B.

Angles at a point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel straight lines.

When a straight line cuts two other straight lines, if—

(*i*) a pair of alternate angles are equal, or

(*ii*) a pair of corresponding angles are equal, or

(*iii*) a pair of interior angles on the same side of the cutting line are together equal to two right angles,

then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and rectilineal figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by these sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal; each diagonal bisects the parallelogram and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following Algebraical identities:—

$$k(a + b + c + .) = ka + kb + kc + \ldots .$$

$$(a + b)^2 = a^2 + 2ab + b^2.$$

$$(a - b)^2 = a^2 - 2ab + b^2.$$

$$a^2 - b^2 = (a + b)(a - b).$$

The square on a side of a triangle is greater than, equal to, or less than, the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The difference in the case of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two interesting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord which is not the diameter is at right angles to the chord; conversely, the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or in the same circle), (*i*) if two arcs subtend equal angles at the centres, they are equal; (*ii*) conversely, if two arcs are equal they subtend equal angles at the centres.

In equal circles (or in the same circle), (*i*) if two chords are equal, they cut off equal arcs; (*ii*) conversely, if to arcs are equal the chords of the arcs are equal.

Equal chords in a circle are equidistant from the centre; and the converse.

The tangents at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semi-circle is a right angle, the angle in a segment greater than a semi-circle is less than a right angle, and the angle in a segment less than a semi-circle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

If a straight line touch a circle and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segment.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Proportion: Similar Triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular, their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these angles proportional, the triangles are similar.

In any right-angled triangle the perpendicular to the hypotenuse from opposite vertex divides the triangle into two triangles which are similar to the whole triangle and to each other.

The internal bisector of an angle of a triangle divides the opposite sides internally in the ratio of the sides containing the angle and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

APPENDIX III.

EXTRACT FROM THE REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENTS UNDER THE GOVERNMENT OF INDIA.

[*These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service ; and that his discretion is in no respect limited by these Regulations.*]

N.B.—As regards candidates who have been wounded, a candidate who has lost one hand, fore-arm, or arm, or one leg *below* the knee might be accepted, but the following classes of wounds must be regarded as disqualifications, viz., (1) Injury to head ; (2) Loss of an eye ; (3) Loss of leg above or through the knee.

GENERAL PHYSICAL REQUIREMENTS.

I. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

II In the examination of candidates the Medical Board will apply the following table of correlation of age, height and chest girth :—

Age.	Height without shoe.			Chest.	
				Girth when expanded.	Range of expansion.
	Inches.		Inches.	Inches.	Inches.
19 to 20 ...	... 62½	and under	65	35	2
	65	,,	68	35	2
	68	,,	70	35½	2
	70	,,	72	36	2
	72	and upwards		36½	2½
21 and upwards	... 62½	and under	65	35	2
	65	,,	68	35½	2
	68	,,	70	36	2
	70	,,	72	36½	2½
	72	and upwards		37	2½

III. *Measurement of Height.*—A minimum height of 5 ft. 4 ins. is imposed. The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard ; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eights.

IV. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. The maximum measurement will likewise be noted The girth with the chest fully expanded and the range of expansion between the minimum and maximum will then be recorded.

V. The hearing must be good.

VI. The speech without impediment.

VII. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth, where necessary for effective mastication.

VIII. The chest must be well formed, the lungs and heart sound.

IX. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

X. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

XI. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

XII. A candidate must not be the subject of chronic skin disease.

XIII. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

REGULATIONS AS TO STANDARD OF VISION FOR THE INDIAN POLICE FORCE.

1. Squint, or any morbid condition of the eyes or of the lids of either eye liable to the risk of aggravation or recurrence, will cause the rejection of the candidate.

2. The examination for determining the acuteness of vision includes two tests; one for distant, the other for near vision. The Army Test Types will be used for the test for distant vision, without glasses, except where otherwise stated below, at a distance of 20 feet; and Snellen's Optotypi for the test for near vision, without glasses, at any distance selected by the candidate. Each eye will be examined separately, and the lids must be kept wide open during the test. The candidate must be able to read the tests without hesitation in ordinary daylight.

3. A candidate possessing acuteness of vision, according to one of the standards herein laid down, will not be rejected on account of an error of refraction, provided that the error of refraction, in the following cases, does not exceed the limits mentioned, viz. :—(*a*) in the case of myopia, that the error of refraction does not exceed 2·5 D.; (*b*) that any correction for astigmatism does not exceed 2·5 D.; and in the case of myopic astigmatism, that the total error of refraction does not exceed 2·5 D.

4. Subject to the foregoing conditions the standards of the minimum acuteness of vision with which a candidate will be accepted are as follows :—

Standard I.

Right Eye.	Left Eye
Distant vision. V=6-6.	V=6-6.
Near vision. Reads 0·6.	Reads 0·6.

Standard II.

Better Eye	Worse Eye.
Distant vision. V=6-6.	V, without glasses = not below 6-60; and, after correction with glasses = not below 6-24.
Near vision. Reads 0·6.	Reads 1.

Standard III.

Distant vision. V, without glasses = not below 6-24; and, after correction with glasses = not below 6-6.	V, without glasses = not below 6-24; and after correction with glasses = not below 6-12.
Near vision = reads 0·8.	Reads 1.

The existence of imperfection of colour sense does not necessarily disqualify, but will be noted on the candidate's papers.

N. B.—In all other respects candidates must come up to the standard of physical requirements laid down for candidates for commissions in the army

APPENDIX V.

[NOTE.—Appendices V and VI are merely intended to show the principal leave and pension rules at present applicable to the Indian (Imperial) Police Service without going into minute details, and do not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Fundamental Rules in the case of leave and of the Civil Service Regulations in the case of pensions for the time being.]

ORDINARY LEAVE RULES FOR OFFICERS POSSESSING NON-EUROPEAN DOMICILE.

Leave is calculated in terms of "leave on average pay," and the amount of "leave on average pay" for which an officer is eligible is $\frac{3}{11}$ ths of the period spent on duty.

Subject to certain maxima and minima, an officer may draw, at his option, leave salary equal to the average pay of the last 12 months of completed duty or to half such average pay. All leave on average and half the period on half average pay is counted against the leave earned. An officer may take his leave on average pay, on half average pay, or on a combination of the two, provided that his continuous absence from duty does not exceed 28 months, and that the amount of leave taken on average pay does not exceed four months at any one time. The maximum amount of leave admissible during an officer's career is the equivalent of leave on average pay for 2½ years *plus* $\frac{1}{11}$th of the period spent on duty, of which not more than $\frac{1}{11}$th of the period spent on duty may actually consist of leave on average pay.

III.—GENERAL.

Leave not due and carrying half average pay may be granted on medical certificate, and within certain limits, for other reasons, but an officer will not again commence to earn leave until the expiration of a fresh period of duty sufficient to earn a credit of leave equal to the leave he has taken before it was due. After 28 months' absence from duty an officer of the Indian Imperial Police Service draws quarter average salary subject to certain maxima and minima.

Leave salary is ordinarily payable in rupees if the officer spends his leave in India or Ceylon, and in sterling if he spends it elsewhere. The rate of exchange for the conversion of leave salary is prescribed from time to time by the Secretary of State. At present it is the current rate of exchange subject to a minimum of 1*s.* 4*d.* during the first four months of leave and 1*s.* 6*d.* during the remainder.

It should be noted that leave can never be claimed as of right, but is given or refused at the discretion of Government.

APPENDIX VI—(*See Note at commencement of Appendix V.*)

PENSIONS.

1. The following is a summary of the pension rules applicable to officers of the Indian (Imperial) Police Service appointed by the Secretary of State from the United Kingdom.

2. Subject to the absolute right, which will not ordinarily be exercised, of the Government of India to decline to permit any officer to retire before reaching the age for superannuation, should it be necessary in the public interest to retain his services, officers will be allowed to retire optionally after 25 or more years' service.

* *These appointments are not set apart exclusively for members of the Police Department, and the Government reserves discretion to fill them by the selection of any officers who are considered best fitted for them, whether in the Department or outside it.*

3. Retirement is ordinarily required at the age of 55 years, but for special reasons an officer is sometimes retained after attaining that age.

4. An officer becomes eligible for full retiring pension on completing 30 years' qualifying service.

5. If before completing this period of service an officer is permitted to retire voluntarily after completion of 25 or more years' qualifying service (paragraph 2), or is compelled to retire on attaining the age of 55 (paragraph 3), or through ill-health not occasioned by irregular or intemperate habits, he will be eligible for a reduced pension or, if invalided with less than 10 years' qualifying service, for a gratuity.

6. The amount of pension or gratuity is regulated as follows :—

28	30	„ 5,600 „

Average emoluments are calculated over the last three years of service.

Pensions drawn in the United Kingdom are converted into sterling at a minimum rate of exchange of 1*s.* 9*d.* the rupee.

7. Government may retire any officer after he has completed 25 years' service without giving reasons, and without admitting any claim to compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. The right reserved to Government under this rule will not be exercised except when it is in the public interest to dispense with the further services of an officer. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

ADDITIONAL PENSION.

8. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments in the lower grade will be entitled to an additional pension at the rate of Rs. 300 per year for each completed year of effective service in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments classed in the upper grade will be entitled to an additional pension at the rate of Rs. 500 for each completed year of effective service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone.

9. These additional pensions will be awarded only to officers who have given proof of special energy and efficiency, and will be subject to the condition that an officer must not retire voluntarily before the age of 55 with less than 28 years' service.

The upper grade includes :—

Inspectors-General of Police (except Inspector-General, Railway Police, Rajputana).

(*c*) by the workman, on the ground that the employer, having commenced to pay compensation, has ceased to pay the same, notwithstanding the fact that there has been no change in the workman's condition such as to warrant such cessation;

(*d*) by the workman, on the ground that he has ceased, since the right to compensation was determined, to be a minor, provided that a certificate of the nature referred to in section 18 or any other certificate of a qualified medical practitioner is produced in support of the application;

(*e*) either by the employer or by the workman, on the ground that the determination of the rate of compensation for the time being in force was obtained by fraud or undue influence or other improper means.

Procedure on application for review.

4. If, on examining an application for review by an employer in which the reduction or discontinuance of half-monthly payments is sought, it appears to the Commissioner that there is reasonable ground for believing that the employer has a right to such reduction or discontinuance, he may at any time issue an order withholding the half-monthly payments in whole or in part pending his decision on the application.

Procedure on application for commutation.

5. (*1*) Where application is made to the Commissioner under section 7 for the redemption of a right to receive half-monthly payments by the payment of a lump sum, the Commissioner shall form an estimate of the probable duration of the disablement, and shall award a sum equivalent to the total of the half-monthly payments which would be payable for the period during which he estimates that the disablement will continue, less one half per cent. of that total for each month comprised in that period:

Provided that fractions of a rupee included in the sum so computed shall be disregarded.

(*2*) When, in any case to which sub-rule (*1*) applies, the Commissioner is unable to form an approximate estimate of the probable duration of the disablement, he may from time to time postpone a decision on the application for a period not exceeding two months at any one time.

PART II.

DEPOSIT OF COMPENSATION.

Deposit under section 8 (1)

6. (1) An employer depositing compensation with the Commissioner under sub-section (1) of section 8 shall furnish therewith a statement in Form A, and shall be given a receipt in Form B.

(2) If in the statement referred to in sub-rule (1), the employer indicates that he desires to be made a party to the distribution proceedings, the Commissioner shall, before allotting the sum deposited as compensation, afford to the employer an opportunity of establishing that the person to whom he proposes to allot such sum is not a dependant of the deceased workman, or, as the case may be, that no one of such persons is a dependant

(3) The statement of disbursements to be furnished on application by the employer under sub-section (4) of section 8 shall be in Form C.

Publication of lists of deposits

7. The Commissioner shall cause to be displayed in a prominent position outside his office an occurate list of the deposits received by him under sub-section (1) of section 8, together with the names and addresses of the depositors and of the workmen in respect of whose death the deposits have been made.

Procedure where no compensation deposited

8. (1) Where a dependant of a deceased workman claims that compensation is payable in respect of the death of the workman and no compensation has been deposited in accordance with sub-section (1) of section 8 in respect thereof, the dependant may apply to the Commissioner for the issue of an order requiring the employer to deposit compensation in accordance with the said sub-section :

Provided that no such application shall be entertained, unless the applicant certifies therein that he has requested the employer to deposit compensation and that the employer has refused or omitted to do so.

(2) The Commissioner shall dispose of such application in accordance with the provisions of Part V of these rules :

Provided that—

(a) the Commissioner may, at any time before issues are framed, cause notice to be given in such manner as he thinks fit to all or any of the dependants of the deceased workman who have not joined in the application, requiring them, if they desire to join therein, to appear before him on a date specified in this behalf ;

(b) any dependant to whom such notice has been given and who fails to appear and to join in the application on the date specified in the notice shall not be permitted thereafter to claim that the employer is liable to deposit compensation, unless he satisfies the Commissioner that he was prevented by any sufficient cause from appearing when the case was called on for hearing.

(3) If, after completing the inquiry into the application, the Commissioner issues an order requiring the employer to deposit compensation in accordance with sub-section (1) of section 8, nothing in sub-rule (2) shall be deemed to prohibit the allotment of any part of the sum deposited as compensation to a dependant of the deceased workman who failed to join in the application.

Deposit under section 8 (2)

9. An employer depositing compensation in accordance with sub-section (2) of section 8 shall furnish therewith a statement in Form D, and shall be given a receipt in Form E.

Manner in which compensation may be invested under section 8

10. If the Commissioner decides under sub-section (1) of section 8 that any compensation allotted under that sub-section to a dependant under a legal disability should be invested, he may invest it for the benefit of the dependant in Government securities of Post Office Cash Certificates or deposit it in a Post Office Savings Bank.

PART III.

INQUIRY BY EMPLOYER.

Right of employer to present memorandum when notice given

11. (1) Any employer to whom notice of an accident has been given may at any time notwithstanding the fact that no claim for compensation has been instituted in respect of such accident, present to the Commissioner a memorandum, supported by an affidavit made by himself or by any person subordinate to him having knowledge of the facts stated in the memorandum, embodying the results of any investigation or inquiry which has been made into the circumstances or cause of the accident.

(2) A memorandum presented under sub-rule (1) shall, subject to the payment of such fee as may be prescribed, be recorded by the Commissioner.

PART IV.

Workman not to be required to submit to medical examination save in accordance with rules.

12. A workman who is required by sub-section (*1*) of section 11 to submit himself for medical examination shall be bound to do so in accordance with the rules contained in this Part and not otherwise.

Examination when workman and medical practitioner both on premises.

13. When such workman is present on the employer's premises, and the employer offers to have him examined free of charge by a qualified medical practitioner who is so present the workman shall submit himself for examination forthwith.

Examination in other cases

14. In cases to which rule 13 does not apply, the employer may—

(*a*) send the medical practitioner to the place where the workman is residing for the time being, in which case the workman shall submit himself for medical examination on being requested to do so by the medical practitioner, or

(*b*) send to the workman an offer in writing to have him examined free of charge by a qualified medical practitioner, in which case the workman shall submit himself for medical examination at the employer's premises or at such other place in the vicinity as is specified in such offer and at such time as is so specified :

Provided that—

(*i*) the time so specified shall not, save with the express consent of the workman, be between the hours of 7 P.M. and 6 A.M., and

(*ii*) in cases where the workman's condition renders it impossible or inadvisable that he should leave the place where he is residing for the time being, he shall not be required to submit himself for medical examination save at such place.

Restriction on number of examinations.

15. A workman who is in receipt of a half-monthly payment shall not be required to submit himself for medical examination elsewhere than at the place where he is residing for the time being more than twice in the first month following the accident, or more than once in any subsequent month.

Examination after suspension of right to compensation.

16. If a workman whose right to compensation has been suspended under sub-section (*2*) or sub-section (*3*) of section 11 subsequently offers himself for medical examination, his examination shall take place on the employer's premises or at such other place in the vicinity as may be fixed by the employer, and at a time to be fixed by the employer not being, save with the express consent of the workman, more than 72 hours after the workman has so offered himself.

Examination of women.

17. (*1*) No woman shall without her consent be medically examined by a male practitioner, save in the presence of another woman.

(*2*) No woman shall be required to be medically examined by a male practitioner if she deposits a sum sufficient to cover the expenses of examination by a female practitioner.

PROCEDURE.

Introductory.

18. Save as otherwise provided in these rules, the procedure to be followed by Commissioners in the disposal of cases under the Act or these rules and by the parties in such cases shall be regulated in accordance with the rules contained in this Part.

Applications.

19. (*1*) Any application of the nature referred to in section 22 may be sent to the Commissioner by registered post or may be presented to him or to any of his subordinates authorised by him in this behalf and, if so sent or presented, shall, unless the Commissioner otherwise directs, be made in duplicate in the appropriate Form, if any, and shall be signed by the applicant.

(*2*) There shall be appended to every such application a certificate, which shall be signed by the applicant, to the effect that the statement of facts contained in the application is to the best of his knowledge and belief accurate.

Examination of applicant

20. (*1*) On receiving such application, the Commissioner may examine the applicant on oath, or may send the application to any officer authorised by the Local Government in this behalf and direct such officer to make such examination and forward the record thereof to the Commissioner.

(*2*) The substance of any examination made under sub-rule (*1*) shall be recorded in the manner provided for the recording of evidence in section 25.

Summary dismissal of application.

21. The Commissioner may, after considering the application and the result of any examination of the applicant under rule 20, summarily dismiss the application, if, for reasons to be recorded, he is of opinion that there are no sufficient grounds for proceeding thereon.

Preliminary inquiry into application.

22. If the application is not dismissed under rule 21, the Commissioner may, for reasons to be recorded, call upon the applicant to produce evidence in support of the application before calling upon any other party, and, if upon considering such evidence the Commissioner is of opinion that there is no case for the relief claimed, he may dismiss the application with a brief statement of his reasons for so doing.

Notice to opposite party.

23. If the Commissioner does not dismiss the application under rule 21 or rule 22, he shall send to the party from whom the applicant claims relief (hereinafter referred to as the opposite party) a copy of the application, together with a notice of the date on which he will dispose of the application, and may call upon the parties to produce upon that date any evidence which they may wish to tender.

Appearance and examination of opposite party.

24. (*1*) The opposite party may, and if so required by the Commissioner, shall, at or before the first hearing or within such time as the Commissioner may permit, file a written statement dealing with the claim raised in the application, and any such written statement shall form part of the record.

(*2*) If the opposite party contests the claim, the Commissioner may, and, if no written statement has been filed, shall proceed to examine him upon the claim, and shall reduce the result of the examination to writing.

Framing of issues.

25. (*1*) After considering any written statement and the result of any examination of the parties, the Commissioner shall ascertain upon what material propositions of fact or of law the parties are at variance, and shall thereupon proceed to frame and record the issues upon which the right decision of the case appears to him to depend.

(*2*) In recording the issues, the Commissioner shall distinguish between those issues which in his opinion concern points of fact and those which concern points of law.

Power to postpone trial of issues of fact where issues of law arise

26. When issues both of law and of fact arise in the same case, and the Commissioner is of opinion that the case may be disposed of on the issues of law only, he may try those issues first, and for that purpose may, if the thinks fit, postpone the settlement of the issues of fact until after the issues of law have been determined.

Diary.

27. The Commissioner shall maintain under his hand a brief diary of the proceedings on an application.

Reasons for postponement to be recorded.

28. If the Commissioner finds it impossible to dispose of an application at one hearing, he shall record the reasons which necessitate a postponement.

Judgment.

29. (*1*) The Commissioner, in passing orders, shall record concisely in a judgment his finding on each of the issues framed and his reasons for such finding.

(*2*) The Commissioner, at the time of signing and dating his judgment, shall pronounce his decision, and thereafter no addition or alteration shall be made to the judgment other than the correction of a clerical or arithmetical mistake arising from any accidental slip or omission.

Summoning of witnesses.

30. If an application is presented by any party to the proceedings for the citation of witnesses, the Commissioner shall, on payment of the prescribed expenses and fees, issue summonses for the appearance of such witnesses, unless he considers that their appearance is not necessary for the just decision of the case.

Exemption from payment of costs

31. If the Commissioner is satisfied that the applicant is unable, by reason of poverty, to pay the prescribed fees, he may remit any or all of such fees. If the case is decided in favour of the applicant, the prescribed fees which, had they not been remitted, would have been due to be paid, may be added to the costs of the case and recovered in such manner as the Commissioner in his order regarding costs may direct.

Right of entry for local inspection.

32. A Commissioner before whom any proceeding relating to an injury by accident is pending may at any time enter the place where the workman was injured, or where the workman ordinarily performed his work, for the purpose of making a local inspection or of examining any persons likely to be able to give information relevant to the proceedings:

Provided that the Commissioner shall not enter any premises of any industrial establishment except during the ordinary working hours of that establishment, save with the permission of the employer or of some person directly responsible to him for the management of the establishment.

Procedure in connection with local inspection.

33. (*1*) If the Commissioner proposes to conduct a local inspection with a view to examining on the spot the circumstances in which an accident took place, he shall give the parties or their representatives notice of his intension to conduct such inspection, unless in his opinion the urgency of the case renders the giving of such notice impracticable.

(2) Such notice may be given orally or in writing, and, in the case of an employer may be given to any person upon whom notice of a claim can be served under sub-section (2) of section 10, or to the representative of any such person.

(3) Any party, or the representative of any party, may accompany the Commissioner at a local inspection.

(4) The Commissioner, after making a local inspection, shall note briefly in a memorandum any facts observed, and shall show the memorandum to any party who desires to see the same, and on payment of the prescribed fee, shall supply any party with a copy thereof.

(5) The memorandum shall form part of the record.

Power of summary examination

34. (1) The Commissioner during a local inspection or at any other time, save at a formal hearing of a case pending before him, may examine summarily any person likely to be able to give information relative to such case, whether such person has been or is to be called as a witness in the case or not, and whether any or all of the parties are present or not.

(2) No oath shall be administered to a person examined under sub-rule (1).

(3) Statements made by persons examined under sub-rule (1), if reduced to writing, shall not be signed by the person making the statement, nor shall they, except as hereinafter provided, be incorporated in the record or utilised by the Commissioner for the purpose of arriving at a decision in the case.

(4) If a witness who has been examined under sub-rule (1) makes in evidence any material statement contradicting any statement made by him in such examination and reduced to writing, the Commissioner may call his attention to such statement, and shall in that case direct that the parties be furnished with the relevant part of such statement for the purpose of examining or cross-examining the witness.

(5) Any statement or part of a statement which is furnished to the parties under sub-rule (4) shall be incorporated in the record.

(6) Where a case is settled by agreement between the parties, the Commissioner may incorporate in the record any statement made under sub-rule (1), and may utilise such statement for the purpose of justifying his acceptance of, or refusal to accept, the agreement reached.

Agreement to abide by Commissioner's decision.

35. (1) If a party states in writing his willingness to abide by the decision of the Commissioner, the Commissioner shall inquire whether the other party is willing to abide by his decision.

(2) If the other party agrees to abide by the Commissioner's decision, the fact of his agreement shall be recorded in writing and signed by him.

(3) If the other party does not agree to abide by the Commissioner's decision, the first party shall not remain under an obligation so to abide.

Procedure where indemnity claimed under section 12 (2)

36. (1) Where the opposite party claims that if compensation is recovered against him he will be entitled under sub-section (2) of section 12 to be indemnified by a person not being a party to the case, he shall, when first called upon to answer the application, present a notice of such claim to the Commissioner accompanied by the prescribed fee, and the Commissioner shall thereupon issue notice to such person in Form J.

(2) If any person served with a notice under sub-rule (1) desires to contest the applicant's claim for compensation or the opposite party's claim to be indemnified, he shall appear before the Commissioner on the date fixed for the hearing of the case or on any date to which the case may be adjourned and, if he so appears, shall have all the rights of a party to the proceedings; in default of so appearing he shall be deemed to admit the validity of any award made against the opposite party and to admit his own liability to indemnify the opposite party for any compensation recovered from him:

Provided that, if any person so served appears subsequently and satisfies the Commissioner that he was prevented by any sufficient cause from appearing the Commissioner shall, after giving notice to the aforesaid opposite party, hear such person, and may set aside or vary any award made against such person under this rule upon such terms as may be just.

(3) In any proceeding in which a notice has been served on any person under sub-rule (1), the Commissioner shall, if he awards compensation, record in his judgment a finding whether the person against whom such claim is made is or is not liable to indemnify the opposite party.

Procedure in connected cases.

37. (1) Where two or more cases pending before a Commissioner arise out of the same accident, and any issue involved is common to two or more such cases, such cases may, so far as the evidence bearing on such issue is concerned, be heard simultaneously.

(2) Where action is taken under sub-rule (1), the evidence bearing on the common issue or issues shall be recorded on the record of one case, and the Commissioner shall certify under his hand on the records of any such other case the extent to which the evidence so recorded applies to such other case, and the fact that the parties to such other case had the opportunity of being present, and, if they were present, of cross-examining the witnesses.

38. Save as otherwise expressly provided in the Act or these rules, the following provisions of the First Schedule to the Code of Civil Procedure, 1908, namely, those contained in Order V, rules 9 to 30; Order VII, rules 9 to 18; Order IX; Order XIII; Order XVI; Order XVII; and Order XXIII, rules 1 and 2, shall apply to proceedings before Commissioners, in so far as they may be applicable thereto:

Certain provisions of Code of Civil Procedure, 1908, to apply.

Provided that—

(*a*) for the purpose of facilitating the application of the said provisions, the Commissioner may construe them with such alterations not affecting the substance as may be necessary or proper to adapt them to the matter before him;

(*b*) the Commissioner may, for sufficient reason, proceed otherwise than in accordance with the said provisions, if he is satisfied that the interests of the parties will not thereby be prejudiced.

39. The provisions of this Part, except those contained in rules 23, 24 and 36 shall as far as may be, apply in the case of any proceedings relating to the apportionment of compensation among dependants of a deceased workman.

When representative must be appointed.

43. If the Commissioner considers that the interests of any party for whom a representative has been appointed under rule 42 are not being adequately protected by that representative, or if a person appointed to act as representative dies, or becomes incapable of acting, or otherwise ceases to act as such, the Commissioner shall appoint in his place another person who consents to the appointment.

Form of memorandum.

45. (*1*) On receiving a memorandum of agreement the Commissioner shall, unless he considers that there are grounds for refusing to record the memorandum, fix a date for recording the same and shall issue a notice in writing in Form N to the parties concerned that in default of objections he proposes to record the memorandum on the date so fixed:

Procedure where Commissioner does not consider that he should refuse to record memorandum.

Provided that the notice may be communicated orally to any parties who are present at the time when notice in writing would otherwise issue.

(*2*) On the date so fixed, the Commissioner shall record the memorandum unless, after hearing any of the parties who appear and desire to be heard, he considers that it ought not to be recorded:

Provided that the issue of a notice under sub-rule (*1*) shall not be deemed to prevent the Commissioner from refusing to record the memorandum on the date so fixed even if no objection be made by any party concerned.

(3) If on such date the Commissioner decides that the memorandum ought not to be recorded, he shall inform the parties present of his decision and of the reasons therefor, and, if any party desiring the memorandum to be recorded is not present, he shall send information to that party in Form O.

(2) If the parties to be informed are not present, a written notice shall be sent to them in Form P or Form Q, as the case may be, and the date fixed in such notice shall be not less than seven days after the date of the issue of the same.

(3) If, on the date fixed under sub-rule (1), the party or parties desiring the memorandum to be recorded show adequate cause for proceeding to the record of the same, the Commissioner may, if information has already been given to all the parties concerned, record the agreement. If information has not been given to all such parties, he shall proceed in accordance with rule 45.

48. In recording a memorandum of agreement, the Commissioner shall cause the same to be entered in register in Form R, and shall cause an endorsement to be entered under his signature on a copy of the memorandum to be retained by him in the following terms, namely :—

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. WIRELESS DISTRESS SIGNAL—WARNING AS TO MISUSE.

No. 254 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 737 of 1924), are republished :—

The attention of the Board of Trade and the Postmaster-General has been called to cases in which the wireless distress signal has been sent out by ships (including British ships) which were not at the time in immediate danger.

The signal SOS (. . . — — — . . .) is prescribed by the International Radiotelegraph Convention as the signal to be used by ships *in distress* and under the international regulations, which all ships fitted with wireless telegraph apparatus must obey, stations hearing the distress signal must suspend all ordinary correspondence until the call has been dealt with.

Masters of ships are under international obligation to render assistance to every person in danger of being lost at sea.

The sending out of the distress signal seriously interrupts wireless telegraph traffic and results in ships being diverted from their course and delayed. It must accordingly be used only when the ship is in immediate danger and urgently in need of help. Misuse of the signal will inevitably lead to its being ignored in a case of real necessity.

Full particulars of any well authenticated case of misuse should be reported to the Board of Trade or the General Post Office, London.

PRELIMINARY FORECAST OF THE JUTE CROP, 1924.

CONSOLIDATED STATEMENT FOR BENGAL, BIHAR AND ORISSA, AND ASSAM.

(This Forecast deals with estimates of areas only. Estimates of outturn are dealt with in the Final Forecast.)

Revision of area for 1923.—The forecasted area under jute for 1923 was, most probably, an under-estimate, and I have revised the aggregate figure for the three Provinces to 2,741,434 acres as against 2,312,685 acres given in the final forecast in 1923.

The Bihar estimate for 1923 has been revised, like that of Bengal; but the Director of Agriculture in Assam was unable to alter his figure for 1923.

Area in 1924.—The estimated area under jute in the three Provinces in the present season is 2,690,684, a decrease over the revised figure for last year of 50,750 acres, or about 1·85 per cent.

The consolidated figures are as follows :—

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE JUTE CROP IN BENGAL, 1924.

NOTE.—On an average of the five years ending 1921-22, the area under jute, to which this forecast relates represents 88·2 per cent. of the total area under jute in British India.

Revision of area.—The Preliminary Forecast deals only with estimates of area sown and the condition of the crop at the time of publication of the Forecast. The estimates of area are, as in past years, based on information received through the Collectors from Panchayets and Agricultural Officers.

In the last three years there have been considerable discrepancies between the Forecast figures on the one hand, and those for actual deliveries into Calcutta and Chittagong on the other. In 1923 the forecasted area was 2,014,615 acres. This has since been revised, on the basis of actual deliveries, to 2,398,334 acres.

Area sown in 1924.—The Bengal district returns for the present season shew a total area of 2,359,184 acres, a decrease of about 39,150 acres, or about 1·63 per cent. as compared with the revised final figures for 1923.

Character of the Season.—The distribution of rainfall has again been exceptional, in that very prolonged periods of drought, and almost unprecedentedly high temperatures were experienced in the jute-growing tract. Subsequently some districts in South-Eastern Bengal received continuous and very heavy rain. Latterly the weather has been more favourable.

Present state of the crop.—A certain amount of damage was done, first by drought and, later, in South-Eastern Bengal, by heavy rain. The present condition of the crop is fair.

Stocks.—Information indicates that stocks of old jute are small.

Director of Agriculture, Bengal (Offg.).

APPENDIX I.

Preliminary Jute Forecast of 1924.

DISTRICT.	ESTIMATED AREA UNDER JUTE—		Whether much, little or no jute remains in the district from the crop of 1923.	Date by which the sowing of the crop generally commenced this year, and whether the date was early, normal or late.	REMARKS BY DISTRICT OFFICERS.
	Last year.	This year.			
1	2	3	4	5	6
	Acres.	Acres.			
24-Parganas ..	36,697*	42,000	Little ..	End of April. Nearly normal.	Increase in area is due to timely rain in Basirhat and Barasat subdivisions. The weather was favourable at the outset, but it became unfavourable afterwards. The drought from the middle of May to the middle of June much affected the growth of the crop and delayed sowing in the Sadar and Diamond Harbour subdivisions.
Nadia ..	72,335*	72,335	Little ..	Beginning of May. Normal.	Weather conditions were not very favourable just after the sowing operations. Recent rain has improved the prospects of the crop.
Murshidabad ..	13,434*	11,073	Very little ..	Latter part of May. Late.	Decrease in area is due to want of rain at sowing time. Subsequent rain, however, induced the raiyats to re-sow the area damaged by drought.
Jessore ..	71,876*	79,527	Little ..	End of April. Normal.	Increase in area is due to high price of jute in previous year. Weather was not favourable at sowing time, but conditions, subsequently improved owing to rain.
Khulna ..	17,199*	20,315	Nil ..	Last week of April. Normal.	Increase in area is due to high price and greater demand this year. At sowing time there was some rain; but a period of drought continued afterwards affecting the growth of the crop to some extent. The present condition is fair.
Burdwan ..	3,036*	2,527	Nil ..	End of May. Late	Decrease in area is due to want of rain at sowing time; subsequently, however, there was adequate rain. The present condition is not very satisfactory.
Midnapore ..	5,274*	1,290	Very little ..	May to June. Late.	Decrease in area is due to want of rain at sowing time. The weather was extremely unfavourable at sowing time, but subsequent rain improved the situation.
Hooghly ..	14,761*	13,420	Little ..	Middle of May. Late.	Decrease in area is due to continued drought and late sowing. Prolonged drought interfered with the preparation of lands and in some places with the germination of the seeds sown. The growth was retarded, but afterwards the condition improved owing to rain.
Howrah ..	7,226*	4,216	Little ..	Middle of May till the third week of June. Late.	Decrease in area is due to long spell of drought and low prices. There was some rain during the third week of June.
Rajshahi ..	85,990*	93,000	Little ..	Early part of May. Normal.	Increase in area is due to ordinary fluctuation of cultivation. The weather was fair at sowing time but the drought in June was detrimental to the growth of the crop to a small extent. Some damage has been done in the Nator subdivision.
Dinajpur ..	63,750*	62,200	A little ..	End of April ..	The crop suffered owing to drought, but with the subsequent rain the condition improved.
Jalpaiguri ..	40,226*	42,000	Very little ..	Second week of April. Normal.	Favourable weather, combined with the high price fetched last year, has given an increase in area.
Darjeeling	2,217*	2,217	Little ..	By the end of April. Late.	The weather has been favourable and the present condition of the crop is satisfactory.
Rangpur ..	223,926	245,894	Very little ..	April. A little late	At sowing time the weather was somewhat unfavourable but subsequently it became favourable owing to sufficient rain. Some damage was done by hail-storm in Sadar and Nilphamari subdivisions.
Bogra ..	82,150*	79,583	Very little ..	March to end of April.	The drought materially affected the growth of the crop, but subsequent rain improved the condition of the crop.

Malda ..	13,357*	15,380	Nil ..	Normal ..	The character of weather was marked by continued drought after sowing, which caused some damage. Subsequent rain improved the condition of the crop.
Dacca ..	297,864*	283,236	Nil ..	End of February till first week of May. Late.	The slight decrease in area is due to unfavourable weather at sowing time. Continuous drought retarded the growth of the crop. Insect pests also caused slight damage.
Mymensingh ..	637,705*	606,000	Very little ..	Beginning of May. Normal.	The weather was very dry at first, but it became wet afterwards and proved favourable.
Faridpur ..	208,371*	200,000	Practically none	April. Late ..	The weather was not very satisfactory at sowing time, but subsequently heavy rain affected the growth of the crop. The present condition is fair.
Bakarganj .	33,543*	33,062	Very little ..	April and May. Normal.	The growth of the crop was stunted by drought. Heavy rains, and flood which followed afterwards, caused the crop to suffer. The present condition has improved a little.
Chittagong ..	243*	200	Nil ..	Middle of May. Normal.	Condition of the crop is good.
Tippera .	287,179*	269,000	Practically nil ..	First part of April. Normal.	The weather was not favourable and constant rain prevented weeding. The damage by hail-storm is estimated at 20 per cent. The present condition is not very hopeful.
Noakhali ..	29,760*	33,166	Nil ..	Early March Normal.	Increase in area is due to rise in prices last year. The weather has not been very favourable. There has been slight damage by drought, heavy rain and storm.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

PRELIMINARY FORECAST OF THE JUTE CROP OF BIHAR AND ORISSA, 1924.

NOTE.—On an average of the five years ending 1921 22, the area under jute to which the Bihar and Orissa forecast relates represents about 7·2 per cent. of the total area under jute in British India.

The present forecast deals only with the estimated area sown It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales

2 **Acreage.**—The estimated area sown during the current and four preceding years in round numbers is given below:—

Year	Acreage
1920	178,800
1921	108,400
1922	160,000
1923	223,200*
1924	212,200

* Revised

3 **Weather conditions.**—In March light rain fell in the jute districts except Bhagalpur, Purnea and Cuttack; the fall was below the normal everywhere. In April and May there was light rain in all the jute districts; the fall was above the normal in Bhagalpur and the Santal Parganas in April and in Cuttack in May, but below the normal elsewhere In June there was moderate rainfall everywhere except in Cuttack and Balasore, where the fall was light

4 **District returns.**—The total area under jute, as reported by District Officers, is estimated in round numbers at 212,200 acres as against 223,200 acres, the revised figure for last year The decrease in the area sown this year is mainly due to want to rain at the sowing time In Purnea the decrease is also attributed to lower prices of jute fetched last year

5 **Condition and prospects.**—The condition of the crop is on the whole good.

6 **General.**—The quantity of jute which remains in the jute districts from the crops of 1923 is reported to be little

The statement below compares the area under jute in this province this year with the preliminary and final figures of last year

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE JUTE CROP IN ASSAM, 1924.

NOTE.—On the average of the five years ending 1921, the area under jute in Assam represents 4·3 per cent. of the total area under jute in British India.

Character of the season.—The weather at the beginning of the season was generally dry throughout the province, affecting area and growth of the crop to a certain extent, but later rainfall has been satisfactory and has improved the condition of the crop. On the whole the prospects of the crop appear to be fair.

Area sown.—The total area under jute has been estimated to be 119,300 acres against the actual area of 119,900 acres in last year.

Stock.—Little jute remains from the stock of last year in the Sylhet, Kamrup, Darrang, Nowgong and Sibsagar districts.

Cachar ..	300	300	300	....	....	Nil ..	First part of April. Normal.	The condition of weather for this crop has been favourable. The present prospects of the crop appear to be good and the outturn is expected to be better this year.
Sylhet ..	17,900	13,600	14,900	1,300	....	Little ..	First week of April. Normal.	The favourable market condition of jute has caused the increase in area. The prolonged drought at the beginning of the season was unfavourable for the growth of the crop. The weather seems to be favourable now, but the outturn is likely to be worse than last year.
Goalpara ..	50,000	44,600	40,400	....	4,200	Practically no jute.	First week of April. Normal.	The decrease is due to unfavourable weather at sowing time. The weather was dry at the beginning, but improved later. Slight damage has been done to the crop by drought, hailstorms and heavy rainfall in places. On the whole the condition of the crop is better than in last year.
Kamrup ..	12,700	10,200	10,700	500	....	Little ..	15th April. Normal.	The weather has been favourable and the prospects of the crop are good and better than last year.
Darrang ..	9,300	13,600	9,600	....	4,000	Do. ..	15th April. Normal.	The condition of weather has not been favourable and the outturn is expected to be below normal.
Nowgong ..	14,700	33,500	39,400	5,900	....	Very little ..	15th April. Normal.	The increase in area is due to the rapid expansion of cultivation by the Mymensingh immigrants and the high price of jute. The weather was unfavourable at sowing time on account of insufficient rain, but is fair now. Very slight damage was done by insects. The present condition of the crop appears to be normal.
Sibsagar ..	300	300	300	....	....	Little ..	Middle of April. Normal.	The weather was rainy at sowing time, but has been dry of late. The present condition of the crop is, however, fair, but the outturn is not expected to be better than last year.
Lakhimpur ..	200	200	100	....	100	Nil ..	1st April. Normal.	There was abandonment of cultivation during the year. The weather has been fair and the outturn is likely to be better than last year.
Garo Hills (Plains)	4,600	3,600	3,600	....	....	Nil ..	First week of April. Normal.	The weather was favourable at sowing time. There was drought in the first half of June, affecting the crop to a certain extent, but the weather is fair again. The outturn is expected to be below normal, as in last year.

No. 292-C.

Simla, the 3rd July 1924.

RESOLUTION.

The following papers are published for general information :—

(1) *Letter from the Secretary to the High Commissioner for India in the United Kingdom, No. H. C.* $\frac{21487}{99-4-11}$, *dated the 1st May 1924.*

I am directed to forward for the information of the Government of India Mr. Lindsay's report on the work of the office of the Indian Trade Commissioner for the two years ending 31st March 1924.

2. Mr. Bhore's letter No. 5007 of 28th August 1922, forwarding Mr. Chadwick's report for 1921-22, gave expression to the opinion held by Sir William Meyer of the great value to India of the post of Indian Trade Commissioner in London. The present High Commissioner associates himself fully with that opinion, and desires to add that he considers that Mr. Lindsay has carried on with great ability and credit the work initiated by Mr. Chadwick.

3. The report itself indicates the very wide scope of the Trade Commissioner's activities, and their value to the industries and export trade of India. Sir Dadiba Dalal has, moreover, been much impressed by the very cordial relations which Mr. Lindsay has maintained with business men in this country who have relations with India, and he has on many occasions received testimony both to the high esteem which Mr. Lindsay has won, and to the services which he has been able to render to Indian trade by his tact and energy.

(2) *Report on the work of the office of the Indian Trade Commissioner in London for the period from 1st April 1922 to 31st March 1924.*

I have the honour to submit my report on the work of the office of the Indian Trade Commissioner for the period from 1st April 1922 to 31st March 1924. Mr. D. T. Chadwick, C.I.E., I.C.S., who wrote the last report for the period 1st April 1920 to 31st March 1922, continued in charge of this office until 1st July 1922, when he was succeeded by Mr. F. Noyce, C.B.E., I.C.S., I took over charge from Mr. Noyce on the 1st of February 1923, and retained charge during the remainder of the period under review. Mr. Chadwick's report for 1920-22, with the forwarding letter of the High Commissioner, was published in the Supplement to the *Gazette of India*, dated the 7th October 1922, under Commerce Department Resolution No. 5143, dated the 3rd October 1922.

1922-23.

2. During 1922-23, the earlier of the two years under review, the location of the office remained at Winchester House, Old Broad Street. The functions of the Indian Trade Commissioner continued in essentials the same as they had been in 1920-22; they are fully and clearly explained in Mr. Chadwick's report and it is unnecessary here to do more than to recall them in brief summary. They fall under two main heads, Commercial Intelligence Work Proper and Special Work.

3. *Commercial Intelligence.*— Commercial Intelligence work is undertaken in the interests of Indian Industries and of the export of trade of India. This office is not interested in the import trade of India, which is the concern of British and foreign Trade Commissioners and Consular officers established in India and of the States which employ them. Under the head of Commercial Intelligence thus defined are included :

(*a*) Trade introductions.
(*b*) Special reports to Indian firms regarding market conditions in the United Kingdom and Continent or regarding new processes likely to be useful to the development of Indian Industries.
(*c*) Special reports to Departments and officers of the Government of India, Local Governments and Indian States.
(*d*) Assistance to Indian Industrialists and Merchants visiting the United Kingdom and Continent and to Indian firms established in the United Kingdom.
(*e*) Answers to enquiries from business houses, in the United Kingdom or Continent interested in purchasing Indian goods.
(*f*) Generally looking after the interests of Indian firms, where such action is legitimate and practicable, in any misunderstandings which may arise with firms or Government Departments in the United Kingdom and the Continent, provided no question of policy is involved.

4. *Special Work.*—The special work undertaken by the Indian Trade Commissioner during 1922-23 consisted chiefly of :

(1) The organisation of the Indian Arts and Crafts stall at the British Industries Fair and the disposal of the exhibits.
(2) The organisation of the India Section of the British Empire Exhibition.
(3) The issue of Certificates under the Hides and Skins Export system.
(4) Committee work in connection with the British Empire Exhibition (India Section), the Advisory Council of the Board of Trade, the Empire Cotton Growing Corporation and the Empire Flax Growing Committee.
(5) The accounts relating to Government wheat sales in the United Kingdom and Continent.
(6) The allocation and sales of Reparation Dyes.

1923-24.

5. *Transfer of Office.*—Within a month of assuming charge as Indian Trade Commissioner, I received instructions from the Government of India, through the High Commissioner, to close my Office at Winchester House, and to transfer to the High Commissioner's Office at 42, Grosvenor Gardens, effecting in the course of transfer as large a reduction of my staff as was possible. This measure was necessitated by the financial position of the Government of India, which called for urgent economies in all departments of that Government. I at once gave notice to the Trustees of Winchester

House, in terms of the lease, of the intention of the Government of India to sublet the premises for the unexpired period of the lease, which amounted to one year and nine months, and made active enquiries for a sub-tenant with the help of an agent. I also gave notice to members of my staff whose services could not be retained. The transfer to Grosvenor Gardens was effected on the 1st of April, 1923, and a new tenant was found to take over, on the September quarter day of the same year, the premises thus vacated at Winchester House. The staff was reduced from three Assistants, one head clerk, five clerks, one stenographer, one typist and one attendant, to one head clerk and one clerk. The change of personnel and the economies effected are detailed in paragraph 20 of this report.

6. In describing the work of the Indian Trade Commissioner during the year 1923-24, it is necessary at the outset to draw attention to several changes which have occurred in the functions of the Office. These changes took place gradually during the closing months of 1922 and the early months of 1923. They affected the special work described in the fourth paragraph rather than the Commercial Intelligence work proper, though the latter has necessarily undergone transformations which will also be described.

7. *Special Work of the Indian Trade Commissioner—British Empire Exhibition.*—In the first place, work connected with the British Empire Exhibition increased so rapidly during 1922 that it was found necessary to appoint a whole-time officer as Secretary to the Advisory Committee and Executive Assistant to the High Commissioner in matters relating to the Exhibition. This post was first created in October, 1922, and after two changes of incumbent was occupied by Mr. Kendall throughout the year 1923-24. The Indian Trade Commissioner was thus relieved of detailed executive work connected with the Exhibition, but continued to serve as a member of the Indian Section Committee.

8. *Certification of Indian Hides and Skins Shipments.*—In the second place, with the abolition from 1st March 1923 of preference to British tanners in the Indian Export duties on hides and skins and the reduction in the general rate of those duties from 15 to 5 per cent., the task of certification was confined to consignments which left India prior to that date. This work is now at an end and all that remains to be done is to trace if possible the outstanding consignments (54 in all) for which, owing to liquidations of the importing firms or for other reasons, applications for certificates have not been received. The following statement shows the numbers of certificates issued by the Indian Trade Commissioner during each of the past three years, covering consignments from the ports indicated :—

Year.	Bombay.	Calcutta.	Karachi.	Madras.	Rangoon.	Totals.
1921-22	67	99	52	28	61	307
1922-23	72	96	133	68	126	495
1923-24	9	13	20	19	16	77

Thirdly, the reparation dyes accounts were finally closed on the 31st January, 1923. Only one claim remains to be settled before the Government wheat accounts are also closed ; it is expected that this claim will be adjusted during the current month.

9. *Committee Work.*—While the bulk of the special work described in Mr. Chadwick's report for 1920-22 has thus diminished, rendering possible the drastic reduction of staff which was effected on the transfer to Grosvenor Gardens, the Committee work of the Indian Trade Commissioner has sensibly increased. Throughout the year 1923-24 I continued to serve as a nominee of the India Office, with the approval of the Government of India, on the Advisory Council of the Board of Trade

Meetings of the Empire Flax Growing Committee are not regularly held, but I am kept posted, and in turn inform the Government of India, of important developments of this industry.

10. I continued to serve as Indian Government representative on the Executive Committee of the Empire Cotton Growing Corporation. My work on this Committee, and the friendly relations with the headquarters staff of the Corporation established by my predecessors, developed steadily throughout the year. Acting on suggestions received from the Indian Central Committee I was fortunate to secure the assistance of the Corporation in several directions beneficial to the Indian Cotton Industry. In the first place, the Corporation have agreed by arrangement with the Oldham Master Cotton Spinners' Association to put through spinning tests of various growths of Indian Cotton likely to prove suitable to the requirements of Lancashire spinners. A beginning was made in March 1924, with a selection of six bales of Indian cotton purchased by the Corporation in Liverpool. A further ten bales have been shipped by the Indian Central Cotton Committee from Bombay and will undergo similar test. The results will be brought to the notice of Lancashire spinners and it is hoped that a direct stimulus will thus be given in India to the cultivation and clean baling of long-staple cotton.

Secondly, the Corporation have approached the Liverpool Cotton Association with a view to the promulgation of a special form of hedge contract to cover typical grades of Indian cotton. Thirdly, an Indian sub-committee of the Corporation was constituted in June, 1923, to advise on all problems specially affecting the Indian Cotton Industry. Of this sub-committee, I was appointed the Chairman. Finally, the Corporation have included Indian cottons in their stall at the British Empire Exhibition and have assisted with advice in the arrangements preliminary to the organisation of the stall of the Indian Central Cotton Committee. For these practical measures of assistance to the Indian Industry, acknowledgments are due to the valuable co-operation of Mr. R. H. Jackson, Chairman of the Corporation, of Sir James Currie, K.B.E., C.M.G., Director of the Corporation, and to Mr. W. H. Himbury, General Manager of the British Cotton Growing Association. I also served as member of the Intelligence and Library and Exhibition sub-committees of the Empire Cotton Growing Corporation throughout the year.

11. As already explained, I continued to serve as a member of the Indian Section Committee of the British Empire Exhibition. In addition, I accepted nomination to the Burma and Bengal Section Committees.

As a member of the London Chamber of Commerce I attended on invitation, in an advisory capacity, meetings of the East India Section of the Chamber. I also continued and developed the cordial relations which my predecessors had established with the Manchester Chamber of Commerce, and in particular assisted the India Section of that Chamber with advice and information as required.

I attended meetings of the Federation of British Traders' Associations which under the Chairmanship of Sir Stephen Demetriadi, K.B.E., has discussed progress with the Carriage of Goods by Sea Bill, a measure in which India is interested. I have throughout the year kept in close touch with the International Chamber of Commerce, the Association of British Chamber of Commerce, the Federation of British industries and the Chamber of Shipping of the United Kingdom.

Special reference should be made to the British Empire Producers' Organisation, which safeguards the interests of producers in all parts of the Empire. I was asked, and agreed, to serve on the Tobacco Committee of the Organisation and at meetings of this Committee have advised from time to time when questions affecting the Indian tobacco industry came under discussion. I have recently accepted nomination to the Fibres Committee and to the Council of the same organisation.

12. As delegate of the High Commissioner I serve on the London Section of the Textile Institute, and also, on occasions when the High Commissioner cannot be present, on the Imperial Shipping Committee. I was nominated by the Government of India as their representative at the International Navigation Congress in July, 1923, when several questions of importance and interests to India arose, particularly that of port facilities for steamships of deep draught and the recovery of charges relating thereto. Finally, with the approval of the High Commissioner, I prepared material specially required by the India Office on behalf of the Indian representatives at the Imperial Economic Conference of October, 1923. I attended meetings of the Conference as Commercial Adviser to the Indian Representatives and served on three sub-committees of the Conference dealing with Empire questions relating to customs commercial intelligence, trade statistics and shipping in which Indian interests required representation.

Ruhr Export Licenses.—As a last instance of special work on behalf of Indian trade, I have undertaken, at the request of the India Office, to watch the interests of Indian firms which have difficulty in securing Export licenses for goods ordered from manufacturers in the Occupied Territories of the Ruhr.

13. *Commercial Intelligence Weekly Cable.*—While the special work of the Indian Trade Commissioner has thus diminished in some directions and increased in others, his primary duties remain those connected with the dissemination of Commercial Intelligence. Here also there have been considerable changes during 1923-24. During the previous year, a distinctive feature of the Office had been the distribution to firms in the United Kingdom interested in Indian trade, by means of a weekly printed circular, of up-to-date information regarding trade movements in India. This circular was based on a weekly cable received from the Director-General of Commercial Intelligence at Calcutta, giving reports of weather conditions and crops in India, market quotations and Indian trade statistics. To the information contained in these cables was added any further trade news which had come to the notice of the Indian Trade Commissioner and was likely to be of use to the firms thus circularised. This service was highly valued by Indian trade circles in the United Kingdom. It was found necessary to discontinue it, with effect from the 20th March, 1923, in the interests of economy. Within one month, however, an arrangement had been concluded with Reuter's, Limited, whereby Reuter's Calcutta Office obtained from the Director-General of Commercial Intelligence and cabled to their London Office the official trade news which had till then been cabled by the Director-General to the Indian Trade Commissioner, together with price movements as quoted in the Indian markets. The London Office of Reuter's, Limited, effect the distribution to firms and newspapers in the United Kingdom. This system still continues and, it is understood, gives general satisfaction.

14. *Visits to the City.*—A second development which has occurred is contingent on the transfer to Grosvenor Gardens. Winchester House had proved a convenient headquarters for the office, as it was central and easily accessible to business firms in the City,

who frequently sent representatives to consult the Indian Trade Commissioner on questions relating to India's trade. From this point of view the transfer to Grosvenor Gardens was likely to cause inconvenience to City firms interested in the office and dependent upon it for commercial information. This inconvenience is to some extent overcome by means of the telephone, but the telephone fails where important and confidential subjects have to be discussed in person or where the enquirer desires to consult books of reference. In order to meet such requirements, I was fortunately able, through the courtesy of the Chairman of the East India Section and the Secretary to the London Chamber of Commerce, to secure the use of one of the Committee rooms of the Chamber for two mornings each week. At this room are kept permanently duplicate copies of the more important books of reference maintained in my Office Library. London firms interested in Indian trade have been notified of my attendance at the Chamber on Tuesday and Friday mornings, and, when necessary, send their representatives to interview me there. This arrangement has worked most satisfactorily and I desire to take this opportunity of expressing my great obligation to the London Chamber authorities for the accommodation thus placed at my disposal. The number of visitors naturally varies between one day and another; but on the whole ample use has been made of the opportunities to interview me at the Chamber, and the results are more than sufficient to justify the experiment. In addition, special visits are made, when necessary, to the offices of business firms in the City.

15. *Trade Introductions.*—The various classes of trade information supplied by the Indian Trade Commissioner, whether spontaneously or in reply to enquiries, have been summarised in the third paragraph of this report. Communications to firms in India are sent through the Director-General of Commercial Intelligence at Calcutta, who keeps a record of the information supplied and is thus in a position to reply to any requests for similar information, which he may receive direct. A large volume of trade introductions is thus effected, Indian export firms receiving from this office, through the Director-General of Commercial Intelligence, the names of suitable firms in the United Kingdom and Continent importing the goods for which they wish to find a market. Conversely, import houses in the United Kingdom and Continent are furnished with the names of Indian firms supplying goods which they require. Although no responsibility can be taken in either office for the reliability of the firms thus introduced, the Director-General of Commercial Intelligence and the Indian Trade Commissioner make such enquiries as are possible, in regard to firms in India and in the United Kingdom and Continent, respectively, to ensure that only firms of good standing are maintained on their records. Steps are also taken, where necessary, to verify the interest of the firm introduced in the particular line of business offered. It is by such methods that a Trade Commissioner is able to reduce the otherwise heavy odds against successful introductions and to increase the proportion which lead to actual business. It should be noted, however, that firms resent inquisitive attempts to ascertain business put through as a result of information given; and the Trade Commissioner is thus forced to rely on common sense and general experience in effecting introductions, rather than on the concrete evidence of results previously secured.

16. *Demands for Indian goods in the United Kingdom and Continent.*—While it is impossible to give a detailed account of the various classes of trade enquiry handled by the Indian Trade Commissioner during the two years under review, it is possible to give a brief survey of the principal lines of enquiry. The demand for minerals has been keen throughout the period, and enquirers in the United Kingdom have been put in touch with the principal producers and exporters in India. Particular interest has been shown in Indian Chrome and Manganese. Long-staple cotton is in demand and Indian cotton of good quality is now more freely used by spinners both in the United Kingdom and on the Continent than was formerly the case. Indian oil-seeds of all kinds have been the subject of numerous enquiries, particularly during the past year. The prospect of an increase in the preference on Empire-grown tobaccos has stimulated the demand for Indian tobaccos in the United Kingdom. A valuable report showing the principal Indian firms engaged in this trade and the classes of tobacco which they respectively handle has been received from the Director-General of Commercial Intelligence and communicated to firms in the United Kingdom at whose instance the information was called for and to others likely to be interested. Conversely, information as to the requirements of the British Tobacco market has been collected and sent to the Director-General for communication to Indian firms likely to be interested. Suggestions have been forwarded to the Director-General with a view to the adoption of improved methods in the cultivation of Indian hemp and its preparation for the London market, in districts where better methods are likely to lead to better prices being secured. There are indications of an increasing demand in the United Kingdom for the Indian sporting goods, such as tennis, racquets and cricket balls, of first-class make and reasonable price. The names of good Indian firms have in this connection been communicated to enquirers in England. The same remarks apply to Indian carpets, Indian cotton bedspreads and Indian lacquer ware and brassware.

17. *Assistance to Indian firms desirous of extending their markets.*—From Indian firms, enquiries have been received for the names of firms in the United Kingdom and Continent importing the goods which they export, and many introductions have been effected through the Director-General of Commercial Intelligence. These enquiries relate

largely to general exports such as oil-seeds, oilcakes, spices, tanning material, coir, etc. but also extend to manufactured goods such as grain-bags, matting, cotton textiles, leather goods and fancy-ware Samples of minerals have been received from producers in India and reports forwarded to them intimating the demand in the United Kingdom and the names of firms interested in the enquiry. A special report on the London market for caesin was forwarded, on request, to the Director of Industries at Bombay. Many enquiries were received from India for the names of likely purchasers of lace and chiconwork, and introductions were effected; unfortunately, the market for these goods is at present seriously depressed. New processes of manufacture (of which for obvious reasons no particulars can be given in a published report) likely to be of advantage to local industries have been investigated and the results communicated to Government Departments or to private firms in India. Introductions have been effected with the object of securing purchasing agencies in India for importing houses of good standing in the United Kingdom and selling agencies in the United Kingdom for Indian exporters. Finally Indian business men visiting London are welcomed at this office where they receive such assistance as they may require, whether by way of trade introductions or in any other direction.

18. *Official reports.*—This survey would be incomplete without some reference to the supply of official information regarding India to enquirers in the United Kingdom and Continent. Hydro-electric surveys, Railway and Irrigation reports, boiler and factory regulations, Company and Customs Laws and Income-tax rules relating to India are in constant demand. Statistics of India's import and export trade and reports on Indian industries are also widely supplied not merely to private enquirers but also to Chambers of Commerce and Trade Associations. The commerce Department of the Government of India has throughout been kept in touch with commercial developments of interest to India.

19. *British Industries fair.*—The British Industries Fair was held from the 19th February to the 2nd March, 1923, and the Indian Arts and Crafts stall proved a success in spite of the prevailing trade depression. Mr. French supervised the sales of Punjab goods and Mr. Rodger those of Burma. The Bombay Presidency was also represented. It was unfortunate that the United Provinces were not represented, as the artware of this province has always proved an attraction. Their Majesties the King and Queen visited the stall on the opening day. The financial results during the past three years have been as follows:—

Years.	Cash sales	Orders placed.
	£	£
1921	1,074	2,907
1922	1,142	3,617
1923	1,029	575

The falling-off in the value of "Orders placed" which represent orders received at the stall for transmission to the provincial arts and crafts institutions in India and execution by them, is chiefly due to the non-participation of the United Province in the 1923 Fair. In past years Mr. Rice has attended to the disposal of exhibits remaining unsold after the close of the Fair, and the execution of orders. On this occasion he was unable to conclude the task before he went on leave, and the ultimate sales, and winding up of the accounts, were entrusted to Mr. Chandra, the Curator of the High Commissioner's show room, who completed these duties satisfactorily.

20. *Office Organisation and Personnel.*—The organisation of the office has changed materially as a result of the reduction of staff already noticed. Through the courtesy of the High Commissioner I am authorised to utilise the services of the staff of stenographers on his cadre; my accounts are kept by his Accounts Department; sales of publications to visitors calling at my office are merged in the general publications works of his Records Branch; I am also authorised to draw on his general staff of messengers. These arrangements have worked admirably. They have resulted in a considerable saving in the Budget Expenditure of my own office without extra expense to that of the High Commissioner. The reduction of staff has thrown additional work on the Indian Trade Commissioner and his two remaining clerks, but this result was unavoidable if real and substantial economies were to be effected. It has meant that I have to attend personally to numerous enquiries, relating to Indian minerals and Indian Customs Regulations and routine trade introductions which were previously handled by Mr. C. S. Fox, Mr. P. R. Rice and Mr. B. D. Asli, respectively. These three officers were employed as assistants to the Indian Trade Commissioner before the transfer to Grosvenor Gardens. It is needless to state that I seriously miss their services which terminated on 31st March, 1923 when Mr. Fox returned to India and Messrs. Rice and Asli went on furlough. The following statement summarises the total cost of the office of the Indian Trade Commissioner during each of the past three years and indicates the economies effected as a result of the reorganisation of April, 1923:—

Years.	£
1921-22	9,158
1922-23	9,693
1923-24	4,117

21. Mr. Butler, who has remained on as Head Clerk, has done excellent work in the routine administration of the Office and has also assisted with drafting as required. His tasks has been a heavy one and he has carried it out efficiently and well. He has throughout been loyally assisted by Mr. Fainges, who was also transferred to Grosvenor Gardens and who in addition to his clerical duties has attended to the office library. The following figures show the effects of the transfer, curtailment of work and reduction of staff, on the volume of correspondence handled :—

Year.				Letters received.	Letters issued.
1921-22	...	...	...	7296	7760
1922-23	...	...	...	9017	9227
1923-24	...	...	...	3165	3159

The reduction of correspondence is due to the transfer to a special officer of work connected with the Indian Section of the British Empire Exhibition and to the closure of the Wheat sales accounts, the Reparation dyes accounts and the certification of Hides and Skins. It is true that, with the return of Mr. Fox to India, enquiries relating to Indian minerals have fallen off. General trade enquiries, however, trade introductions and demands for reports on special aspects of Indian trade and Industries show no signs of diminishing in volume or importance. Replies to enquiries of this character, frequently by telephone, receive my personal attention and represent a large proportion of my work.

22. *Acknowledgment.*—Cordial relations have been established with business firms in London, to whom I am much indebted for information and advice freely sought and ungrudgingly given. I welcome this opportunity of expressing my great obligations to the Departments of Overseas Trade and to other Departments of State with which I have come into contact; also to Chambers of Commerce and other Commercial Organisations interested in India, with which I have throughout been in close touch.

5. The Inspector of Schools on being satisfied will issue a passport for admission to the text examination. No candidate will, however, be admitted unless he is identified to the satisfaction of the headmaster of the school at which he appears.

6. The headmasters of the institutions named above should direct candidates who appear at their schools to fill up the application form for permission to appear at the Matriculation Examination in their presence. These applications will be forwarded to the office of the Inspector of Schools. The Inspector of Schools will then countersign the applications of those candidates who pass the test and forward them to the candidates direct for transmission to the Registrar with the fees for the examination.

7. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves together with the countersigned applications.

8. The Matriculation Examination will be held in March 1925, and the applications and fees must reach the office of the Registrar on or before the date fixed by the University.

N. B.—A student who failed to pass the annual examination for promotion to class X at the end of the session of 1923 and then left the school can under no circumstances be allowed to appear at the examination.

Candidates for the B.A. Examination must forward with their applications their I.A. or F.A. certificates, and those for the Intermediate Examination, their Entrance or Matriculation certificates. Those candidates who were admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B.A. Examinations are informed that their applications for admission to these examinations will not be considered unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates who have applied for or have obtained the special permission of the Senate for the purpose are required, under section 9, Chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as "University students." No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 4th January 1925, together with other papers mentioned in rules 2 and 3, after which no application will be received.
